Take Your Hospitality Communications to the Summit with SUMMIT

The Vertical Summit™ is the only communications platform with a dedicated hotel/motel feature set ideally suited for boutique, small and medium-sized properties. Combine your communications system directly with guest services for more streamlined, cost-effective administration and operations, from the front desk to the back of the house.

Now directly integrated with a variety of Property Management Systems (PMS), Vertical Summit can help you achieve your business and hospitality goals.

Real-Time Contact Sharing
Instant Call Handoff
Remote Control
Bluetooth® Hands-Free

Read about the Allworx All-In-One Communications Platform on pages 2 – 3 of this catalog or call 800-873-5528
At Target, we keep you abreast of all of the exciting changes in technology in the fields of Telephony, Datacom, Conferencing, Audio/Video and Security Products by constantly scouring the marketplace for the latest trends, newest products and best values available!

Please note that this catalog includes only the “adds, moves and changes” that have taken place since our full 224-page catalog was released earlier this year, and represents just a small portion of the over 125 lines and thousands of items that we distribute.

We work hard to earn your business every day and look forward to helping you with all of your needs as the year progresses. Thanks for your business and for letting Target be your “Converged Products Distributor.”

Sincerely,
The Target Distributing Team

Advanced Software Add-Ons
Make Allworx VoIP Systems Work the Way Your Customers Work

Allworx Reach™ extends the rich functionality of your Allworx VoIP communication system right to your iOS and Android devices.

- Transfer, hold, and park calls with a single touch.
- Make easy three-way calls.
- Access call history, see parked calls, and call into scheduled conference calls.1
- Search across Allworx system users and extensions, and personal mobile contacts.
- Check voicemail messages.
- Change presence setting.
- One single Reach license is included with every Allworx system so you can try it for free. Additional licenses can be purchased in one- or multi-license packs.

Allworx Reach Link™ ensures a seamless voice experience, even as your mobile data network changes.

- Keep active Reach calls connected as you move from a Wi-Fi to a 4G cellular data network, and vice versa.
- Choose from several one-touch options to recover interrupted Reach calls in real time.
- Control the manual option to keep active 4G Reach calls on 4G regardless of the Wi-Fi availability.
- Reach Link is sold separately as a system-wide license.

Allworx Interact™ Professional is the ultimate call control dashboard, combining the ease of a PC-based interface with the high voice quality of the Allworx handset.

- Customize as you see fit – add separate windows for Dial Pad, Call History, Contacts, Current Calls, Parked Calls, and Outside Lines; or hide them when not in use.
- Enjoy one-click dialing, hold, transfer, park, and more.
- Make easy three-way calls.
- Search across Allworx system users and extensions, and your MS Outlook contacts.
- Quickly scan your colleagues’ presence and status to see who’s busy or available.
- Record individual calls or record all calls automatically.
- Automatically pop open third-party web applications (e.g., Salesforce.com) with incoming calls.
- Enable call center agents to log in/out of their queues, update their busy status, and quickly scan the queue status.2
- Interact Professional is available for Windows operating systems. One single Interact Professional license is included with every Allworx system so you can try it for free. Additional licenses can be purchased in single- or multi-license pack.

Allworx Conference Center is a cost-effective voice conferencing solution that’s easy and secure.

- Sold as a server-wide license — no per user fees.
- Schedule, modify, and monitor conference calls from the web-based My Allworx Manager.
- Conference calls are automatically secured with a unique conference call ID and password.
- Connect 731 supports up to 4 conference bridges for a maximum of 30 concurrent participants.
- Connect 536, 530, 324, and 320 support 1 conference bridge for a maximum of 8 concurrent participants.

Allworx OfficeSafe™ is a FREE backup tool that protects all your Allworx server data and application files

- Back up an unlimited number of Allworx servers, with up to 10 servers transmitting data simultaneously.
- Schedule backups of each server independently at a time most convenient for each site.
- View the activity log for real-time progress and/or set up automatic email notifications.

Allworx Automatic Call Distribution (ACD) manages queues and distributes incoming calls intelligently.

- Choose from four styles of call distribution: Linear priority, round-robin, longest idle, and ring all.
- Includes 10 defined queues with configurable depth.
- Programmable function keys (PFKs) on the agent phones enable easy queue log in/out and busy status update, and visually indicate alarms based on the predetermined queue thresholds.
- Supervisor can listen in on the agent calls using a PFK enabled on the supervisor phone.
- Set queue prioritization for when the agents are working multiple queues.
- Configure customized call routes based on various queue conditions (e.g., maximum wait time, queue is full).
- Access basic queue and agent statistics, and update queue settings from a web browser.
- Available for Connect 731, 536, and 530.
- Sold as a server-wide license.

Allworx Advanced Multi-Site unifies up to 100 Allworx locations to improve ease-of-use and employee collaboration.

- Connect up to 100 Allworx sites.
- Access a global directory.
- Enable extension dialing across all sites.
- Access global voicemail (e.g., forward voicemail to anyone in the global directory).
- Transfer and park calls across all sites.
- Share Auto Attendants across all sites.
- See presence settings for all users in the global directory.
- Access remote site trunk for rerouting external calls.
- Advanced Multi-Site Primary, Advanced Multi-Site Branch, and Advanced Multi-Site Upgrade are sold as a server-wide license. At least one server must be designated as the Primary in a multi-site network.

Allworx View™ and View ACD provide beautiful real-time dashboards and historical call activity reports for Allworx systems to help you make smart, data-driven business decisions.

- Stay on top of queues and agent performance in real time.
- Customize the dashboard using intuitive graphical charts, adjustable font sizes, alarm display options, and more.
- Create as many dashboards as you need with full access control.
- Choose from six intuitive call activity report templates with advanced data filters.
- Create, save, and share call activity reports on demand or auto-update them for email distribution.
- Easily export call activity reports to PDF or CSV files.
- Track call activity data for single- or multi-site Allworx deployments.3
- Manage the call activity data shown based on each user’s permission level.
- Access reports and dashboards via any modern web browser on any device.
- Allworx View and View ACD are sold as server-wide licenses and run on Windows Server 2008R2 or higher. They require System Software 7.7.5.5 or higher, but the most current System Software is recommended for optimal use of the latest features and enhancements.
- View ACD requires both Allworx ACD and View software license keys.

Dual Language Support boosts your international and multicultural corporate presence.

- Companies with customers calling in multiple languages can now choose the option of providing voice prompts in two of the three languages offered.
- The system can be configured based on employees’ preferred languages.
- You can even select individual CO lines or individual Call Appearances to play prompts in the secondary language.
- Two voice prompt languages can be chosen from the following options: English, Castilian Spanish or French Canadian.
- One-time license fee. • Sold as a server-wide license.

All of the products on this page require Allworx Dealer Certification in order to purchase. Call Target today and let us help you get your Allworx Dealer Certification so that your customers can benefit from powerful, easy-to-use IP products while you benefit from an enhanced bottom line for selling Allworx!

1. Accessing scheduled calls via Reach is available to Allworx systems that have installed the Allworx Conference Center software license key.
2. Requires a separate Allworx Automatic Call Distribution (ACD) software license key.
3. To track calls across multiple Allworx sites, Allworx systems need to be configured using Allworx Advanced Multi-Site, and each Allworx system requires a View (and View ACD, if using) software key(s).
IP TELEPHONY

AWARD-WINNING IP TELEPHONY AND UNIFIED COMMUNICATION FOR ALL YOUR BUSINESS NEEDS

Zultys is the global provider of a true all-in-one unified communications solution. Innovative, reliable and scalable, Zultys IP phone systems integrate voice, video, data and mobility — in a single premise based appliance or in the cloud — to optimize collaboration for businesses of all sizes. Zultys delivers a powerful, feature-rich communications system that is easy-to-use, deploy and maintain. Zultys is headquartered in Silicon Valley with offices around the world.

Designed To Fit Your Customers Needs and Your Business Model

Zultys provides cloud hosted, virtual and on premise communication solutions that offer customers an award-winning feature set with unmatched flexibility and reliability. You can install our MX-E or MX-SE phone systems on premise; install an instance of MX software on a VMware-approved server in the customers data center or in your data center or join Zultys Cloud Services—a fully hosted solution where Zultys acts as telephony service provider as well as hosts a virtual instance of the MX for the customer. Zultys helps Enterprises and SMBs weave their workforce together into a seamless, highly survivable Unified Communications solution that combines the power of voice, video, chat, web conferencing, presence and collaboration to let them work together as a single unit, no matter where they are.

MX Release 13.0 for MX-E, MX-SE, MXvirtual and Zultys Cloud Services

New Release version 13.0 for the MX system adds exciting capabilities like:

- MX systems now support voice encryption based on Secure RTP to ensure communications remain private when using Zultys phones and soft phones supported via Zultys’ Unified Communication clients, like MXIE and ZAC.
- Improved password security of remote phones that are connected to the corporate communication system.
- Last Agent Routing - If a customer calls back within a certain amount of time, their call can be sent to the same agent that already helped them, so they don’t have to explain themselves again.
- A web-based portal for configuring Call Handling Rules and Notifications which provides a cost-effective alternative for customers who do not need a fully-featured unified communication and collaboration tool, like MXIE or ZAC, but would like to benefit from an easy-to-use option for setting up advanced ways to route incoming calls to their extension.
- Support for 1+1 redundancy for the MX-E product to provide an even higher level of redundancy and resilience for large corporations.

Zultys Cloud Services

Zultys Cloud Services is a fully-hosted turnkey Unified Communications as a Service (UCaaS) solution. Your communication system is hosted in Zultys’ state-of-the-art data centers that are fully redundant and are supervised around the clock.

Zultys Cloud Services offers the exact same feature set as all the other MX Series IP Phone Systems, but with the added convenience of a hosted solution. There are no upfront investments and you only pay for the services and features you need on a per-user basis. You can easily add users and functionality as your business expands.

Like all other Zultys offerings, Zultys Cloud Services can be integrated into an MXnetwork, which can be a mix of on-premise, virtual or hosted systems.

Zultys Advanced Communicator - ZAC Pilot

The team at Zultys has worked tirelessly to take a concept for a new product that would bring together all the tools necessary for successful collaboration and make it a reality. This idea led to the birth of a new member of the Zultys family.

- Available on Windows and Mac
- Presence, instant messaging, voice mail, and contacts
- Team messaging ensures teams are “always on” and all members have access to team information anytime
- Send and receive FAX messages from within ZAC, eliminating the need for clunky FAX machines while simultaneously saving on paper
- On-demand Call Recording
- Schedule conferences and collaborative online meetings right from the ZAC screen
- Integrated with Microsoft Outlook

New in ZAC 3.0:
- Full screen mode
- Call group support for Agents
- Drag-n-drop call control actions

Available FREE with Zultys MXIE license

Zultys Mobile Communicator™

Zultys mobility solutions allow employees to stay connected over mobile devices no matter where they are.

- Mobile presence and instant messaging
- Visual Voice Mail access and management
- Mobile privacy (present office caller ID)
- Single number contact
- Least cost routing
- Corporate directory and phone system access
- Email integration
- System level call hold and transfer
- Contact Center Agent functionality
- Send and receive fax messages (Android only)

New in version 7.0:
- Group Chat – users can share instant messages with all the coworkers within their team via the Group Chat function across both the ZAC client and mobile applications.
- User interface is enhanced and provides a consistent experience between the mobile applications and the ZAC desktop application
- Update to incoming call functionality that summons an iPhone incoming call screen whenever a call through Zultys Mobile comes in. You can answer the call from the lock screen and or with any iPhone compatible Bluetooth device.

90-82002 Zultys Mobile Communicator for iPhone
90-82003 Zultys Mobile Communicator for Android
### Unified Communications Platform (UCP)
- UCS standard application with built-in UCS server
- LIP-9000 series IP Phone integration
- Geographical Redundancy
- UCS Premium applications with external UCS server
- UC Desktop
- iPECS Unicode now supported across all iPECS products:
  - UCP 100, UCP 600, UCP 2400, eMG80 & eMG800
- Expansion to 2400 ports – UCP 100/600/2400
- UC Mobile clients for iOS and Android
- Installation Wizard
- Applications/software business model
- UCP UVM voice mail to 200 hours
- New Web admin look and feel

### eMG80
- CO/Trunk lines Max. 74
- Integrated Auto Attendant /Voice Mail
- E-mail notification
- (CAS) Attendant Call
- Personal groups
- SIP extension
- SMDR (Station Message Detail Recording)
- Stations Max. 140
- Centralized Voice Mail
- IP-Attendant
- Automatic Call Distribution (ACD)
- Mobile extension
- Remote control from mobile phone
- Multiple language support and MORE!

### eMG800
- Up to 1200 ports
- Built-in iPECS UCS
- Embedded Voice Mail
- Embedded audio conference
- One number service
- Emergency paging/call monitoring
- VM to E-Mail forwarding
- Built-in iPECS Clickcall
- Embedded ACD
- Embedded hotel features
- Web call back
- Simplified directory search
- Centralized Voice Mail
- Embedded VoIP
- Embedded SIP
- Mobile extension
- ACD call statistics
- Custom MOH support
- Web administration and MORE!

### Ericsson-LG Applications
- Integrated Auto Attendant and Voice Mail
- E-mail notification
- (CAS) Attendant Call
- Personal groups
- SIP extension
- Web call back
- Traffic analysis
- Multiple language support
- Centralized Voice Mail
- IP-Attendant
- Automatic Call Distribution (ACD)
- Mobile extension
- Remote control from mobile phone
- SMDR (Station Message Detail Recording)
- System scenario call routing
- Green power save

- Allows headset user to go offhook without lifting handset

The RHUB server provides flexibility and value by embedding 6 outstanding real time collaborations and applications in 1 server.

1. Web Conferencing – give sales presentations and product demos, and collaborate interactively
2. Remote Support – support PC and Mac users remotely
3. Audio Conferencing – VoIP based audio conferencing & free landline audio conferencing services
4. Video Conferencing – multi-point webcam based video conferencing
5. Remote Access – access your office or home PCs from anywhere anytime
6. Webinar – provide online seminars without download of any kind for view-only attendees

PRESENCE MANAGEMENT REDUNDANT POWER SOLUTIONS

Add Redundant Power With Alarm Reporting to iPECS-LIK/UCP Systems
Reliability is a fundamental prerequisite for today’s IP based telephony systems. Redundancy offers the peace of mind of knowing your system will continue to operate in the event of a component failure. Should one of the RPS power supplies RPS fail, an alarm interface directs the iPECS telephone system to alert staff of a power disruption.

THE SL1100 – SMART COMMUNICATION FOR SMALL BUSINESS

SL1100

1100001 Basic Digital System Kit Includes:
(1) 1100010 Main KSU 0x8x4
(1) 1100022 4-Port CO Line Daughter Card
(3) 1100061 Digital 12-Btn. Speakerphones in Black

670535 (808920)
Installation Cable
6 Modular RJ45 to 25 pair cable

1100010 Main
KSU
• Configured as 0x8x4
• Built-in
2-Channel
Auto Attendant
• (4) Mobile Extension Ports
• 2 of the 4 Analog Ports can be assigned to doorboxes

1100011 Expansion KSU
• 2 of the 4 Analog Ports can be assigned to doorboxes

1100110 Expansion KSU Interface Card
• Provides interface for up to 3 Expansion KSUs (with Rev. 3.5 Software • Installs on Main KSU

1100005
Digital Quick-Start Kit includes:
(1) 1100010 Main KSU 0x8x4
(1) 1100022 4-Port CO Line Daughter Card
(1) 1100112 2-Port InMail Voicemail
(6) 1100061 Digital 12-Btn. Speakerphone in Black
(1) 670535 Install Cable
(1) 1100066 Desi-Labels/12-Button/25-Pack

1100009 Digital Quick Start Kit with 24 Button Telephones (Not shown)
(1) 1100010 Main KSU 0x8x4
(1) 1100022 4-Port CO Line Daughter Card
(1) 1100112 2-Port InMail Voicemail
(6) 1100161 Digital 24-Button Speakerphone in Black
(1) 670535 Install Cable (1) 1100067 Desi-Labels/24-Button/25-Pack

1100013 IP Quick Start Kit with SIP Trunks and IP Terminals (Not shown)
(1) 1100010 Main KSU 0x8x4
(1) 1100111 16-Channel VoIP Daughter Board - with (4) SIP Trunk Ports
(1) 1100112 2-Port InMail Voicemail
(6) 1100161 IP 24-Button Speakerphone in Black
(1) 1100067 Desi-Labels/24-Button/25-Pack

ENDPOINTS AND ACCESSORIES

1100063 24-Button – Black
1100062 24-Button – White
• Full Duplex Speakerphone
• Backlit keypad and soft keys
• Programmable keys with LEDs
• Headset port
• Built-in wall mount kit
• 8 Selectable ring tones

1091054 Wireless Headset Adapter
• Provides interface for Plantronics wireless headsets instead of Plantronics HL10 remote handset lifter

24-BUTTON IP ENDPOINT

1100161 – Black  1100160 – White
• Headset port • Full Duplex Speakerphone
• Does NOT require a SIP Station License
• Equipped with (2) RJ45 jacks
• Requires power by optional AC Adapter (690631)
• Requires optional Cat5 cord

1100162 Wall Mount Unit  690631 AC Adapter
1100067 Desi Labels – 25-Pack  1100070 Black Desi Labels 25-Pk

CALL LOGGING

780324 IP Call Logging Unit
780275 Digital Call Logging Unit
1101119 1-Client IP/Digital Call Logging Manager License

DOORBOX
721160 (922450) Doorbox
• Connects to the last two analog station ports
• Maximum (2) per Main/Expansion KSU/6 per system

WIRELESS ENDPOINTS AND ACCESS POINTS

ML440/AP20 Starter Kit (1100007) Includes: (3) ML440 Handsets, AP20 Access Point Bundle & 1100111 VoIP Card
AP20 (730651) Access Point ML-440 (730650) IP DECT Handset and Charger Bundle (3) ML440 Handsets & AP20 Access Point Bundle (730653)
• Up to 30 handsets can be registered to one AP20 • Works on all SL1100 systems with #1100111 VoIP Card installed • No digital extension required
• Up to 20 AP20s Per System • Up to 8 simultaneous calls per access point • Handset charger has spare battery charging compartment

NEC SL2100 Communications System

With NEC’s SL2100, you can ensure that your team stays connected through its wide-range of communication tools that accommodate flexible workspaces and allow free roaming wherever they are.

With VoIP capabilities, it puts Unified Communications within reach of small businesses or it can be used as a resilient TDM solution with future-proof upgrade potential. It also presents considerable savings and functionality over and above alternative hosted solutions.

**Featuring:**
- Slide-in Card Slots
- Built-in InMail – 4-Port / 2-Hour
- Built-in VoIP – (8) Channels
- Self-labeling, Gigabit compatible IP Telephone
- ACD provides (8) ACD Groups, each with up to (128) agents
- ACD agents can log into more than one group
- Optional Remote Conference License
- PRI Interface is now a daughter board
- Optional Rack Shelf for Chassis
- SL Net up to (50) SL2100 sites
- SL Net with existing SL1100 sites
- Integrates with new Color LCD Cordless DECT Telephone & ML440 Handsets
- 5-Year Hardware Warranty

**All Phones Feature:**
- Full-duplex Hands-free speakerphone
- Backlit 3-line/24-character display
- Dialpad (not backlit)
- User Programmable Function Keys with Red/Green LED’s
- (4) Soft Keys • Navigator Key
- Tri-color (Red/Green/Orange) Call Indicator LED
- 2-Step Leg Angle Adjustment
- Headset Jack
- 9-Ft handset cord

The NEC UNIVERGE SV9100S and the SV9100E Communications Servers are robust, feature-rich, Unified Communications enabled systems that are ideal for small and medium-sized businesses. Each server is designed to help solve today’s communications challenges and is built with a migration path in mind, so you can scale your customer’s communications as their business grows.

**SV9100S** – System capacity up to 48 ports
The SV9100S is for small businesses that just want the basics, but also want a system that can grow and migrate to the SV9100E when ready.

**SV9100E** – System capacity up to 1296 ports
The SV9100E is for small to medium businesses that wish to take full advantage of what IP and Unified Communications has to offer.

New Univerge SV9100 Release 7.0 Software Offers:
- UC Suite user can use softkeys to fast forward or rewind InMail messages
- Multiple SIP Extension Profiles allowed
- Call History – 3-Line Display Enhancement
- Flexible Caller ID Notification – user can select a different Calling Party Number for outgoing calls
- InMail Security Enhancement – remote access to a mailbox requires a security code
- Packet Capture Enhancement Capability – One of the main highlights of the new R7.0 software for the UNIVERGE SV9100 is the Packet Capture capability which further simplifies the analysis and management of overall network traffic and performance. While the SV9100 has several utilities to assist in troubleshooting and diagnosing problems both during and after installation, the Packet Capture enhancement now allows you and your customers to examine and capture real-time running packets over the network.
- WebPro License Display – allows technician to verify a systems “used” and “remaining (unused)” licenses

UC Applications Include:
- Innovative application that increase efficiency and productivity
- Simplified call management through easy-to-use graphical user interfaces
- User Presence for real-time status and availability of colleagues
- Instant messaging for quick, real-time conversations
- Easy capture/upload of profile pictures to be associated with Busy Lamp Field (BLF) and company directory
- Color customization of main window and instant message window
- Internet browser access to features through UC Web Client
- Microsoft® Outlook® calendar integration
- Simplified call handling for operators and attendants
- Seamless integration with UNIVERGE SV9100 Contact Center application for contact center functionality
- Quick access and easy management of messages through the integration with InMail and UNIVERGE UM8000
- Runs on either an SV9100 internal server blade or external server – full functionality either way

INTRODUCING NEC SURVEILLANCE SYSTEMS
NEC has introduced over 48 new surveillance cameras that perfectly complement the SV9100 and just about any other analog or IP PBX system — represented below are the three major types: dome, bullet and pan-tilt-zoom. There’s an NEC surveillance solution for your most demanding application.

**Q24-FR0000000126369**
Indoor 12MP Motorized IR Vandal Resistant Dome (NCS-DMA-I12)
- 1/1.7” Progressive Scan CMOS
- Up to 12 Megapixel (4096 x 3000) High Resolution
- 12MP Real-time Video • Day / Night
- Audio/Alarm IO
- Vandal-proof Housing
- 2.8–12mm @ F1.4 Motorized VF Lens
- On Board Storage Micro SD slot, up to 128GB
- 12 V DC ± 10%, PoE (802.3at)

**Q24-FR0000000126363**
Outdoor 6MP Motorized VF IR Bullet (NCS-BMA-6)
- 6 Megapixel (3072 x 2048) High Resolution
- 0.01 lux@F1.2, AGC ON, 0 lux with IR
- Real Time 6MP Resolution
- True Day / Night
- IP67 Rating
- IR Range: up to 150 feet
- True Day/Night, 3D DNR, Digital WDR
- On Board Storage Micro SD slot, up to 128GB
- 12VDC/PoE 802.3af 12W Max.

**Q24-FR000000126371**
3MP 36X IR Tracking PTZ Network Camera (NCS-PTA-3)
- 1/3” Progressive Scan CMOS
- 3MP Full HD resolution
- 36X optical zoom
- 600ft IR distance
- True Day/Night, 3D DNR, Digital WDR
- 3D intelligent positioning
- Support 1 BNC analog output for test monitors
- 24VAC / High-PoE power supply

**Built-in applications include a call center solution, mobile solution and voicemail**

- **Cost-effective installation and operation**
- **Expand from 6 extensions, up to 288 extensions with expansion units**
- **Smart hybrid PBX system for small and medium-sized businesses**

**Simplified Installation and Maintenance**
The system starts from only 6 extensions, up to 288 extensions with Expansion Units. It is also a unified communications system which has rich IP features, such as mobile twinning, integrated voicemail and e-mail, instant messaging (chat), and presence information.

**Advanced Features**
The installer can easily program everything related to functions such as PBX and VM, thanks to a built-in web server. Programming can even be carried out remotely.

- **Smart hybrid PBX system for small and medium-sized businesses**
- **Expand from 6 extensions, up to 288 extensions with expansion units**
- **Cost-effective installation and operation**
- **Built-in applications include a call center solution, mobile solution and voicemail**

---

**KX-TDA50G – HYBRID IP PHONE SYSTEM FOR UP TO 50 USERS**

The KX-TDA50G can support up to 12 CO lines and 56 extensions and up to 28 wireless handsets. All of the Panasonic KX-T7000, 7200, 7300, 7400, 7600, 7700 and DT-300/500 series proprietary telephones work with the KX-TDA50G system. So, if you already own a Panasonic system with one of these phone series it will be less expensive to upgrade to this system. Also, while you are upgrading, please don’t forget that the KX-TDA50G can also be easily upgraded to our multi-cell wireless telephones, so it’s easy to keep on top of things in a busy working environment.

**Features Include:**
- The KX-TDA50G is initially configured for 4 lines and 4 extension ports • Now expandable to 12 CO lines and 56 extensions*
- Built-in Caller ID • The 28 extension ports can support up to 28 wireless handsets, 48 wired telephones and 8 cell stations*
- PC based programming • DXDP (Digital Extra Device Port) • Automatic Route Selection (ARS) • Toll Restriction • VoIP
- Voice Mail Integration • SD Memory Card to maintain programmed system features as well as to allow for easy upgrades as new system features are made available
- Uses proprietary system phones, proprietary wireless handsets, single line sets and door phones • Uniform Call Distribution (UCD)

The DECT 6.0 handsets shown above require either the KX-T0155 or KX-T0158 cell station card in order to function.

### SMART IP WIRELESS SYSTEM

**KX-TGP600**

The Panasonic KX-TGP600 DECT Phone System offers a great value single cell DECT solution that is remarkably easy to set up and manage. Its automated provisioning function enables easy deployment plus remote configuration of settings and handset management.

- Support for up to 8 DECT handsets / up to 8 SIP registrations
- Up to 8 simultaneous network conversations • Easy setup and maintenance with auto provisioning
- Wall mountable • Broadsoft/BroadWorks Certified • Includes a KX-TPA60 handset • 1.8” color LCD screen
- HD wideband audio (G.722) • 500 phone book address/20 last dialed number memory
- Full duplex handset speakerphone • Headset jack (2.5mm) • Belt Clip
- Battery Life: Stand-by 200 hours, Talk-time 11 hours • Battery Charge Time: 6 hours

**KX-A406 Wireless Repeater Range Extender (Not Shown)**

- Compatible with wideband audio • Up to 3 units installable with a cascade connection
- Up to 4 calls simultaneously • Up to 6 units can be registered to the KX-TGP600

**KX-TPA60**

- 1.8” color LCD with backlight
- HD wideband audio (G.722)
- 500 phone book address
- 20 last dialed number memory
- Soft keys • Local or network intercom
- Full duplex handset speakerphone
- Headset jack (2.5mm) • Belt Clip
- Battery Life: Stand-by 200 hours, Talk-time 11 hours

**KX-TPA65**

- 1.8” Color LCD with Backlight • Color LED Indicator (blue)
- High-definition Audio (G.722) • Integrated Headset Jack (2.5mm)
- Easy Installation Without Wired LAN • Up to 500 Phone Book Addresses

**KX-TPA60**

- 1.8” color LCD with backlight
- HD wideband audio (G.722)
- 500 phone book address
- 20 last dialed number memory
- Soft keys • Local or network intercom
- Full duplex handset speakerphone
- Headset jack (2.5mm) • Belt Clip
- Battery Life: Stand-by 200 hours, Talk-time 11 hours
SIP CONFERENCE TELEPHONE

CP-960 WIRELESS MIC  
Enterprise HD Conference Telephone - PoE
The Yealink CP960 is an enterprise-grade conference phone for mid-and-large-sized meeting rooms. With speakerphone elements co-engineered with Harman Kardon, the CP960 sets new standards for sound quality and immerses conference participants in every discussion. Combining a wide range and dead-zone-free voice pickup with Yealink’s Noise Proof technology, the CP960 is the perfect match for day-to-day business conference conversations.

- Optima HD audio, full duplex technology
- Yealink Noise Proof Technology
- 20-foot and 360-degree microphone pickup range
- Includes 2 wireless expansion microphones
- Built-in 3-microphone array
- Based on Android 5.1 operating system
- 5-inch multi-touch screen with 720x1280 resolution
- Yealink Pentagon Meeting Room
- 5-way conference call
- Hybrid UC meeting
- Built-in Wi-Fi/Bluetooth
- Connects to PC via USB Micro-B port

YEA-W65P  
SIP DECT Phone with Super Long Battery Life
- 2.4" 240 x 320 color screen with intuitive user interface
- Up to 5 DECT Cordless Handsets
- Per base depending on your needs
- DECT radio coverage up to 50m indoors and 300m outdoors
- Up to 5 Multiple Lines
- Full-duplex handset speakerphone
- 3-way conferencing
- Up to 30 hours talk & up to 400 hours standby time

Yealink Optima HD audio, full duplex technology
- Yealink Noise Proof Technology
- 20-foot and 360-degree microphone pickup range
- Includes 2 wireless expansion microphones
- Built-in 3-microphone array
- Based on Android 5.1 operating system
- 5-inch multi-touch screen with 720x1280 resolution

TARGET'S YOUR BEST SOURCE FOR YEALINK PHONES
E-MAIL – TGSales@targetdist.com • INTERNET – www.targetd.com
SIP-T52S  **Gigabit Smart Media 2.8-Inch Color Screen Phone**
Especially designed for busy executives and professionals, Yealink SIP-T52S is an ease-of-use Media IP Phone with a 2.8-inch color-screen and a distinctive new appearance. For its simplified and human-friendly design as well as user interface, it brings the IP phone and users closer and unceasingly boosts the operating experience.

- 2.8” 320 x 240-pixel color display with backlight
- Built-in Bluetooth 2.0
- USB 2.0 port for USB recording and wired/wireless USB headsets
- Opus Codec support
- Firmware and Auto-P template unified
- Up to 12 VoIP accounts
- Dual-port Gigabit Ethernet
- PoE support
- Paperless label design
- Wi-Fi via WF40 dongle
- EXP-50 color-screen Expansion Module support
- Stand with 2 adjustable angles

SIP-T54S  **Gigabit Smart Media 4.3-Inch Color Screen Phone**
Especially designed for busy executives and professionals, Yealink SIP-T54S is an ease-of-use Media IP Phone with a 4.3-inch color-screen and a distinctive new appearance. For its simplified and human-friendly design as well as user interface, it brings the IP phone and users closer and unceasingly boosts the operating experience.

- 4.3” 480 x 272-pixel color display with backlight
- Built-in Bluetooth 2.0
- USB 2.0 port for USB recording and wired/wireless USB headsets
- Opus Codec support
- Firmware and Auto-P template unified
- Up to 16 VoIP accounts
- Dual-port Gigabit Ethernet
- PoE support
- Paperless label design
- Wi-Fi via WF40 dongle
- EXP-50 color-screen Expansion Module support
- Stand with 2 adjustable angles

SIP-T56A  **Gigabit Smart Media 7-Inch Color Touch Screen Phone**
The Yealink SIP-T56A is a simple-to-use smart media phone that provides an enriched HD audio experience for business professionals. This all-new smart media phone enables productivity-enhancing visual communication with the ease of a standard phone but with the sophistication of the Android 5.1.1 operating system.

- 7 inch (1024 x 600) capacitive touch screen
- Runs Android 5.1.1
- Built-in Bluetooth 4.0+ for headsets and pairing mobile devices
- Built-in Wi-Fi (802.11b/g/n) • Up to 5-party audio conferencing
- USB 2.0 port (2.0 compliant) for USB headset/media and storage applications
- Opus Codec support • Up to 16 VoIP accounts
- EXP-50 color-screen Expansion Module support
- Stand with 2 adjustable angles • Wall mountable

SIP-T58A  **Gigabit Smart Media 7-Inch Color Touch Screen Phone**
The Yealink SIP-T58A is a simple-to-use smart media phone that provides an enriched HD audio experience for business professionals. This all-new smart media phone enables productivity-enhancing visual communication with the ease of a standard phone but with the sophistication of the Android 5.1.1 operating system.

- 7 inch (1024 x 600) capacitive touch screen • Runs Android 5.1.1
- Upgradeable to a 720p30 HD video with optional CAM50 camera module
- Built-in Bluetooth 4.0+ for headsets and pairing mobile devices • Built-in Wi-Fi (802.11b/g/n) • Up to 5-party audio conferencing
- USB 2.0 port (2.0 compliant) for USB headset/media and storage applications
- Opus Codec support • Up to 16 VoIP accounts
- EXP-50 color-screen Expansion Module support
- Stand with 2 adjustable angles • Wall mountable

SIP-T58V  **Gigabit Smart Media 7-Inch Color Touch Screen Video Phone with EXP-50 Expansion Module**
The Yealink SIP-T58V is a simple-to-use smart media video phone that provides an enriched HD audio experience for business professionals. This all-new smart media phone enables productivity-enhancing visual communication with the ease of a standard phone but with the sophistication of the Android 5.1.1 operating system.

- 7 inch (1024 x 600) capacitive touch screen • Runs Android 5.1.1 • 720p30 HD video
- Built-in Bluetooth 4.0+ for headsets and pairing mobile devices • Built-in Wi-Fi (802.11b/g/n)
- Up to 5-party mixed audio/video conferencing • USB 2.0 port (2.0 compliant) for USB headset/media and storage applications
- Opus Codec support • Up to 16 VoIP accounts • EXP-50 color-screen Expansion Module support
- Stand with 2 adjustable angles • Wall mountable

EXP-50 Expansion Module
- 4.3” 272 x 480-pixel color screen
- Color icons for rich visual experience
- 20 physical keys on each page with dual-color LEDs
- Three independent control keys with illuminated LED
- Supports up to 3 modules daisy-chain
- Stand with 2 adjustable angles

V3 Outdoor Intercom
- Integrates with Network Dual Door Strike Relay Module (P/N 011375) and Door Strike Relay Module (P/N 011269)
- Now with enhanced acoustic echo canceler
- PoE 802.3af enabled (Power-over-Ethernet)
- SIP compliant • Full-duplex voice operation
- Now supports SRST (Survivable Remote Site Telephony) in a Cisco environment
- Streamlined case design
- Network web management and firmware download
- Network adjustable speaker volume
- Concurrent SIP and multicast paging
- Dry relay contact for auxiliary control
- Door closure and tamper alert signal
- Downloadable alert, ringtones and callout messages

011209  
Emergency Intercom
- Bright red case for instant visibility
- Integrates with Network Dual Door Strike Relay Module (P/N 011375) and Door Strike Relay Module (P/N 011269)
- Now with enhanced acoustic echo canceler
- PoE 802.3af enabled (Power-over-Ethernet)
- SIP compliant • Full-duplex voice operation
- Now supports SRST (Survivable Remote Site Telephony) in a Cisco environment
- Streamlined case design
- Network web management and firmware download
- Network adjustable speaker volume
- Concurrent SIP and multicast paging
- Dry relay contact for auxiliary control
- Door closure and tamper alert signal
- Downloadable alert, ringtones and callout messages

011272  
Flush Mount Intercom
- Drywall mounting
- Integrates with Network Dual Door Strike Relay Module (P/N 011375) and Door Strike Relay Module (P/N 011269)
- Now with enhanced acoustic echo canceler
- PoE 802.3af enabled (Power-over-Ethernet)
- SIP compliant • Full-duplex voice operation
- Now supports SRST (Survivable Remote Site Telephony) in a Cisco environment
- Streamlined case design
- Network web management and firmware download
- Network adjustable speaker volume
- Concurrent SIP and multicast paging
- Dry relay contact for auxiliary control
- Door closure and tamper alert signal
- Downloadable alert, ringtones and callout messages

011394  
Wall Mount SIP Speaker
- Support for G.722 codecs.
- Powered via PoE
- Enhanced interoperability for hosted environments
- SIP (RFC 3261) compatible
- Night Ringer function
- Plays audio from Multicast • Web-based configuration
- Paging prioritization and background music
- User-upgradeable firmware via web interface or auto-provisioning • External volume control
- Small footprint • High efficiency speaker driver
- IGMP SIP endpoint or Multicast group member
- Network-adjustable speaker volume
- Support for 10 multicast paging groups
- Support for multiple SIP servers for redundancy
- Support for Cisco SRST resiliency
- Relay for activating door locks, external amplifiers, etc.
- Line-level audio output for connecting to an external amplifier

011223  
SIP Paging Adapter
- Two SIP extensions
- Voice prompt pass code and page control
- 9 user-uploadable page messages
- 10 channel prioritized Multicast ports
- HTTP Web Interface and setup
- G711 A-Law and u-Law, G.722 codecs
- Built-in diagnostics
- 10K Ohm input for background music
- 600 Ohm Balanced audio out
- Unbalanced Line-Out • Remote amp fault sensor
- DTMF and programmatically controlled Relay
- Delayed page support • DTMF pass-through
- Cisco SRST • 10/100 802.3af PoE

011280  
Singlewire InformaCast® Paging Adapter
The new CyberData Singlewire InformaCast® Paging Adapter is for use with Singlewire’s paging and emergency notification software InformaCast® or InformaCast® CK. The Singlewire Paging Adapter provides a direct connection to legacy analog paging systems enabling InformaCast® paging events to be broadcast.
- Capable of receiving Singlewire InformaCast, SIP and Multicast messages • Plays audio from Multicast
- 10k Ohm line out and 600 Ohm connectors for interfacing with analog amplifiers
- 802.11Q VLAN support
- Web-based configuration and firmware upload
- PoE 802.3af enabled (Power-over-Ethernet)

011259  
3-Port USB Port Mirroring Gigabit Switch
This enables users of a network-attached device to split a single Gigabit Ethernet port into two Gigabit Ethernet ports for diagnostics purposes. Engineers, Programmers and Field Service Personnel can utilize this Port Mirror function to monitor the network traffic to and from that device with network-monitoring software such as WireShark.
- Port Mirroring
- 3-port auto-negotiating (no crossover cable required)
- 10/100/1000 full duplex
- Powered by USB or 5V source (no external power supply required)
- Link/Status and connection speed LEDs
- Low Power • VLAN Packet Forwarding

011201  
Ceiling Tile Auxiliary Analog Drop-In Speaker
The Ceiling Tile Drop-In Auxiliary Analog Speaker is the newest option for installation of the CyberData Auxiliary Analog Speaker. The “Drop-In” design combines easy installation with a streamlined look. This Drop-In Speaker is an option for the CyberData SIP Speaker to extend the coverage area.
- Easy to Install 1’ x 2’ Design
- Aluminium construction
- Power Input: PoE 802.3af/802.3at

### UniFi SDN Seamless Integration
- **US-24-250W-US**
  - UniFi Managed PoE+ Gigabit 24-Port Switch with SFP
  - Process All Ports at Line Rate / No Loss
  - Up to 26 Gbps Non-Blocking Throughput
  - 52 Gbps Switching Capacity - 250W Maximum Power Consumption
  - 2 SFP Ports - Up to 1 Gbps Fiber Uplinks
  - Auto-Sensing IEEE 802.3af/at
  - 24/Passive PoE • 38.69 Mpps Forwarding Rate • UniFi SDN Seamless Integration
- **US-8-150W-US**
  - UniFi Managed PoE+ Gigabit 8-Port Switch with SFP
  - Process All Ports at Line Rate / No Loss
  - Up to 10 Gbps Non-Blocking Throughput
  - 20 Gbps Switching Capacity
  - 150 W Maximum Power Consumption
  - 2 SFP Ports - Up to 1 Gbps Fiber Uplinks
  - Auto-Sensing IEEE 802.3af/at
  - 24V Passive PoE
  - 14.88 Mpps Forwarding Rate
  - UniFi SDN Seamless Integration

### UVC-G3
- **2MP Outdoor Bullet Camera**
  - 1920 x 1080 Resolution at 30 fps
  - IR LEDs for Night Vision
  - Mechanical IR Cut for True Day/Night
  - 3.6mm Fixed Lens with f/1.6 Aperture
  - 85° / 72° Horizontal FOV • Built-In Microphone for Audio
  - Multiple Image Settings • Ethernet Port with PoE Technology
  - Wall / Ceiling / Pole Ball-Joint Mount

### UVC-G3-LED
- **LED IR Range Extender**
  - For Ubiquiti UVC-G3 Bullet Camera above
  - Extends Night Vision up to 82’
  - Six IR LEDs
  - Powered by Camera

### GXV3500
- **IP Video Encoder/Decoder**
  - Built-in high performance streaming server to allow multiple simultaneous viewers (Encoder mode only)
  - Supports IE, Chrome and Firefox via network preview
  - SIP/VOIP support of two-way audio and video streaming to mobile phones and video phones • Full ONVIF compliance

### UVC-NVR
- **UniFi UVC-NVR with 500GB HDD**
  - Manage and Record from Up to 50 Cameras
  - Up to 1280 x 720 Recording Resolution
  - 500GB Hard Drive • H.264 Compression • Audio Input/Output
  - HDMI and VGA Video Outputs • Remote Viewing on Windows PC
  - Remote Viewing on iOS & Android Devices • UniFi Video Software Preinstalled

### UVC-G3-DOME
- **2MP Dome Camera**
  - 1920 x 1080 Resolution at 30 fps
  - IR LEDs for Night Vision
  - Mechanical IR Cut for True Day/Night
  - 2.8mm Fixed Lens with f/2.0 Aperture
  - 100.4° / 87.8° Horizontal FOV
  - Built-In Microphone for Audio
  - H.264 Video Compression
  - Multiple Image Settings
  - Ethernet Port with PoE Technology
  - Wall or Ceiling Mounted

8128 SIP Strobe Light
- Selectable, preloaded flash patterns and intensities
- SIP compliant endpoint
- Multicast receive or broadcast capability • PoE
- Available colored lens cap kit
- Light splashes onto wall or ceiling for enhanced visibility • Mounts to double gang box or any flat surface
- Up to 198 candela luminous intensity
- Connection via RJ45 Ethernet Jack - PoE 802.3af
- ADA and OSHA compliant

8188 SIP Ceiling Speaker
- Wideband G.722 codec support for HD Voice
- Auto-multicast • SIP compatibility with all leading UC vendors
- Configurable through web interface
- Supports auto-provisioning • Music capable
- Internal memory for uploaded WAV files or recorded messages • Dual SIP extensions for page or notification • Multicast receive or broadcast capability
- Programmable relay input and output • PoE • UL/CSA, FCC, CE, UL2043

8180 SIP Audio Alerter
- SoundSure™ automatically adjusts output level
- Voice Paging with talkback capability
- High output wideband speaker
- Pre-loaded with several ring tones including bell, chime, gong, buzzer, warble, and dogs • PoE (Power over Ethernet)
- Supports custom uploaded WAV files or recorded messages • Multicast receive or broadcast capability
- Polycom Group Paging • PoE Outputs for external speaker, slave amplifier, or visual alert

8028 SIP Doorphone
- SIP Endpoint with auto-provisioning capability
- Web interface for remote configuration
- Initiates or accepts calls • Single pair 24 AWG wiring up to 1,000 ft (300 m) from controller
- Flush or surface mount weather-resistant enclosure
- Full duplex capable
- Stainless steel or brass
- Backlit call button • CSA/UL approved for outdoor location
- Door sensor or call button input at controller or door station
- Door control relay from controller with available 24 V 300 mA power

8186 SIP Horn Speaker
- Wideband G.722 codec support for HD Voice
- Multicast receive or broadcast capability • Mix with any number and model of Algo speakers, strobes and/or paging adapters using multicast (e.g. 8128, 8180, 8186, 8188, 8301, 8373) for a complete voice paging system
- Polycom Group Page • Syn-Apps SA-Announce
- SIP compatibility with all leading UC vendors
- Configurable through web interface
- Auto-provisioning (i.e., TFTP, FTP, HTTP) • SNMP supervision
- Internal memory of 1GB for uploaded WAV files or recorded messages
- Multiple SIP registrations for Ring (10) and Page (50) extensions

8301 IP Paging Adapter
- Wideband G.722 codec support for HD Voice
- Isolated and balanced audio output
- Automatic level control
- Multicast receive or broadcast capability • Polycom Group Page
- SIP compatibility with all leading UC vendors
- Configurable through web interface • Supports auto-provisioning
- Internal memory for uploaded WAV files or recorded messages
- Dual SIP extensions for page or ring notification
- Programmable relay (dry contact) output • PoE (Power over Ethernet) • UL/CSA, FCC, CE, UL2043

8201 PoE Wideband IP Intercom
The 8201 is a one-piece PoE solution as an alternative to the popular 8028 SIP Doorphone. The intercom can be surface or flush mounted, fitting in a standard double gang electrical box. The 8201 can be used as easily indoors as out. The device offers an outdoor-rated plastic enclosure, stainless steel faceplate, conformal coated electronics, and tactile backlit call button for complete weather protection and long life in any climate.
- Wideband G.722 codec support for HD Voice
- SIP compatibility with all leading UC vendors • Configurable through web interface
- Auto-provisioning (i.e., TFTP, FTP, HTTP) • SNMP supervision
- Integrated relay for door opening control or 8061 module for secured relay door control

8028V Vandal Proof Flush SIP Doorphone
- SIP Endpoint with auto-provisioning capability
- Web interface for remote configuration • Initiates or accepts calls • Single pair 24 AWG wiring up to 1,000 ft (300 m) from controller • Full duplex capable
- Flush or surface mount weather and moisture-resistant enclosure
- Tamper-proof security mounting screws (package includes special screwdriver)
- Solid milled aluminum anodized faceplate
- Backlit piezo switch allows visibility in dark environments • No moving parts
- Offset grill pattern protects speaker from external damage

3201 Door Box – Stainless Steel
- Wall-mount digital intercom station with hands-free capability
- Allows single-pair voice and data communication up to 1,000 feet with an Algo controller
- Backlit call button and separate speaker and microphone
- Call button LED flashes while call active
- Speaker tone is provided for call press acknowledgement
- Accepts external switch input (normally open or closed) for elevator button, pull cord, or sensor-activated calling
- Rugged weather-resistant design is suitable for indoor or outdoor installation
- Surface-mount design for easy installation on virtually any flat surface
- Attractive brushed stainless steel finish

8373 Zone Paging Adapter
The 8373 is a PoE IP Paging Adapter for integrating existing and traditional zoned paging solutions into a VoIP environment, whether premise or hosted. Features include G.722 wideband support with isolated and balanced line output for optimum clarity and intelligibility without hum or noise.
- Ethernet Connectivity - 10/100 Mbps
- SIP - 7 Page extensions map to possible zone permutations
- Provisioning - TFTP, FTP, HTTP
- Codec Support - G.711 A-law, G.711 u-law, G.722
- Polycom Group Page, OGG Vorbis
- Relay Output - Normally open or normally closed. Max rating 30 V 50 mA

8036 SIP Multimedia Intercom
The 8036 is designed for indoor or outdoor public access locations to provide enhanced communication and support for guests and visitors. The graphic capacitive touch display can be configured for keypad or icon input and provide content to the visitor. This can be as simple as a corporate logo or multiple pages of content navigated by the visitor.
- Sunlight viewable 5.7” VGA color capacitive touch display
- Integrated camera for still snapshot or H.264 video streaming
- Weatherproof • Wideband speaker and dual microphones
- Presence detection • Secure door/gate management
- SIP compliant, PoE, and network administered
- Communicate with graphics, text, speech, or video • Special Order Only
Built-in Call Detail Records (CDR) for tracking phone usage by line, date, etc.

USB, SD card

• Supports any SIP video endpoint that uses the H.264, H.263 or H.263+ codecs and MORE!

Strongest possible security protection using SRTP, TLS and HTTPS encryption

Common Features:

UCM6208
2FXO, 2FXS. Supports up to 500 users and 30/45 concurrent calls remotely. The secure and reliable UCM6200 series delivers enterprise-grade features without any licensing fees, costs-per-feature or recurring fees.

video calling, video conferencing, video surveillance, data tools, mobility options and facility access management onto one common network that can be managed and/or accessed remotely. The secure and reliable UCM6200 series delivers enterprise-grade features without any licensing fees, costs-per-feature or recurring fees.

UCM6200
Designed to provide a centralized solution for the communication needs of businesses, the UCM6200 series IP PBX appliance combines enterprise-grade voice, video, data, and mobility features in an easy-to-manage solution. This IP PBX series allows businesses to unify multiple communication technologies, such as voice, video calling, video conferencing, video surveillance, data tools, mobility options and facility access management onto one common network that can be managed and/or accessed remotely. The secure and reliable UCM6200 series delivers enterprise-grade features without any licensing fees, costs-per-feature or recurring fees.

GAC2500
Android Enterprise Conference Phone

• 6 lines, 6 SIP accounts, 7-way voice conferencing
• Runs Android 4.4
• Bluetooth for syncing of headsets and mobile devices
• Built-in 7-way conference bridge
• 4.3” (800x480) capacitive touch screen for easy use
• Auto-sensing Gigabit port, built-in PoE support
• Built-in WiFi support
• Full HD audio support to maximize voice quality

GDS3710
HD Video Door Phone

• Powerful video resolutions up to 1080p
• Built-in RFID reader for keyless entry
• SIP video streaming to NVRs, video intercom stations, IP phones, or smart phones simultaneously
• Built with a metal casing to make it weatherproof and vandal resistant
• Built-in camera allows for 180-degree wall-to-wall coverage
• Supports motion detection
• Integrated PoE
• Built-in microphone and speaker

GXV3275
6-Line IP Video Phone 7” Touch Screen

• 6 lines 6 SIP accounts, up to 6-way voice conferencing and 3-way video conferencing
• Dual-switched Gigabit ports and integrated WiFi
• CMOS camera
• Runs Android 4.2
• Bluetooth for headsets and mobile devices
• USB port, SD card slot, mini-HDMI output
• EHS for Plantronics headsets

GXP2170
Enterprise 12-Line HD IP Phone

• 12 lines, 6 SIP accounts, 5 soft keys and 5-way voice conferencing
• 48 on-screen digitally customizable BLF/speed-dial keys
• 4.3 inch color-screen LCD display
• Dual Gigabit ports, integrated PoE
• Supports up to four GXP2200EXT Modules for BLF/speed-dial

GVR3552
Network Video Recorder

• Up to 16 channels of 720p or 8 channels of 1080p HD audio/video real-time recording
• Automatic discovery of Grandstream IP Cameras
• Up to 2 SATA 2.5” internal hard drives (not included) with maximum 4TB storage and RAID 0 or RAID 1 configurations
• Complete security features including role based access control, event/system logs and hard drive content encryption

INDUSTRIAL LONG-RANGE CORDLESS SIP PHONE

The DuraFon-SIP Cordless Phone System delivers industry-leading range, durability and reliability, in a flexible, multimode communications platform that provides users with the lowest total cost of ownership (TCO) in the industry. This durable, long-range SIP cordless phone provides up to 250,000 square feet of facility coverage, penetrates up to 12-floors for in-building coverage and up to 3,000 acres of property in open land coverage. It supports both SIP and one PSTN line analog and is ideal for companies with an existing IP-PBX system on the premises or those using hosted VoIP services that require reliable, long-range communications over large areas or in harsh environments. Such as, organizations whose staff work on large properties outside of a conventional office, or venues where employees need to stay in constant contact with a main office or management team and where Wi-Fi or DECT phones can’t reach.

Superior Long-Range Performance
DuraFon-SIP implements a high-powered 900MHz proprietary air protocol, with high RF transmission and sensitivity to provide superior range and coverage for the industrial market; covering up to 250,000 sq. ft. indoor, 3,000 acres outdoors and penetrating up to 12 floors.

Durable, Ruggedized Design
The DuraFon-SIP’s durable, rugged Handset is designed for use in harsh environments and tested to withstand 6-foot drops, over 50 times onto concrete floors without breaks.

Highly Secure Wireless Communications
Adopting 900MHz (902~928MHz) FHSS (Frequency Hopping Spread Spectrum) technology, the DuraFon-SIP ensures secure communications during conversations.

Single Cell Technology Minimizes Equipment Needs, Saves Money
Designed to simplify deployment, the DuraFon-SIP features single cell technology that leverages a single 900 MHz Base Station for long-range coverage, eliminating the need for added Base Stations or repeaters, helping companies lower their capital expenses through faster deployment.

Features Include:
• Long Range SIP Cordless Phone System - Up to 12 Floors In-Building Penetration, Up to 250,000 sq. ft. of Facility Coverage, Up to 3,000 Acres of Property, Open Land Coverage
• Multi-Mode Communications - Base Supports up to Four (4) Concurrent Calls (4-SIP or 3-SIP + 1-PSTN) Works with any IP-PBX that Supports Standard SIP Protocols
• Independent 2-Way Intercom - “Push-to-Talk” PTT Broadcast Feature - Proven Durability with Ruggedized Design
• Secure 900 MHz (902 ~ 928MHz) FHSS - Supports up to 10 SIP Accounts per Base Station - Web-Based Phone Book & System Configuration

MESSAGE-ON-HOLD

The simple way to manage music on-hold & overhead business music...all from the same box!
Plug & play and walk away – or connect to LAN or WiFi to manage both music/message on-hold content and optional overhead business music from any web browser. The powerful, yet simple web based interface allows users to manage a single player or groups of players, all from one place. Simply and easily update content via any network connection or USB flash drive.

OHP-9000-IP
• Dual zone design allows simultaneous, independent playback of on-hold audio and optional overhead business music
• Schedule and change audio content from any web browser. Manage single or multiple players
• 3 ways to update content - LAN connection, WiFi or USB flash drive
• Built-in monitor speaker / wall mountable / Auto-start after power outage

Music On-Hold Features:
• Ready to go, right out of the box! Pre-loaded with hours of music and “thanks for holding” messages
• Free access to www.cloudstream.com website to manage, schedule and change on hold music and messages (optional premium content available)
• Free personalized, professionally voiced, “thanks for holding” message - provided automatically when product is registered
• Additional professional voice services available - Capable of simple or advanced scheduling

Overhead Business Music Features (optional):
• Streams business music from www.cloudstream.com
• Access to over 70 commercial-free, business-safe, fully-licensed music channels
• Storecasting Capability - Insert customized commercials to selected music stream (professional voice services available)
• Capable of simple or advanced scheduling

Earn a Recurring Revenue Stream
Special dealer program allows you to earn a recurring revenue stream from any paid premium message on-hold plan or streaming business music plan from Cloudstream. Ask your Target sales rep for more details!

Facility Control and Mass Notification

StaffAlerter™ is a custom solution for command and communication during emergency events to notify key personnel anywhere on any device allowing them to take appropriate action. In addition, the system can command outputs to initiate additional actions or control other equipment as required.

Multiple events can be configured with activation through a phone system, contact switches, manually activated switches and with wireless panic buttons. In addition, Web based activation is included. Upon activation, StaffAlerter™ follows a predetermined program written for specific inputs.

The Staff-Alerter™ notifications can consist of a text message, an email, a voice call with text to speech or pre-recorded message and even social media posting. Notifications can be selected as desired or send all formats if needed. Additionally, any of the system outputs can be programmed to follow an input option or via a direct user input.

The base system supports four wired inputs with four 10 amp outputs. Expansion is achieved with serial connected input/output devices. Multiple StaffAlerter and ContactNotifier controllers can be networked to provide control over any size facility or network.

StaffAlerter™ is a managed solution ensuring all customer changes are supported on a 24/7 basis. In addition, all critical operational functions, power state, on line status, Wi-Fi activity and signal levels, and command confirmations are supported and reported to you and monitored by our support center. StaffAlerter™ can work with any PBX system and can also be fully integrated into the Ericsson-LG iPECS IP telephony product line.

ContactNotifier™ from PM Power Products provides users with a powerful, flexible, completely programmable control appliance to process action inputs and notify selected personnel during an emergency or time of crisis or to monitor critical functions. ContactNotifier ships with 4 wired inputs and 4 10 amp relays. With expansion as needed.

Extend StaffAlerter’s Reach with Email-Control™. This application provides remote PC control via email to Activate the VoxStreamer recorder, start/stop programs, reset systems, Digital Messaging, or other actions that can be controlled from a PC but need to be triggered. No external access through a firewall is required and control is through an email account you manage.

Examples of Events Which Can Be Supported with Staff-Alerter

- Suspicious persons alert
- Bomb threat
- Active Shooter
- School bus route delay notification
- Severe weather warning
- Industrial accident
- Hazardous materials event
- Critical function alert for industrial monitoring
- Any activity or event that requires immediate reporting

Optional Single and Multi-channel Key Fobs Available at Additional Cost – Call for Complete Details
### CS500 SERIES

- Gain mobility – multitask hands-free up to 350 feet
- Audio controls volume/mute at your fingertips
- Conference in up to three additional headsets for enhanced collaboration
- New headsets can subscribe to a base by simply docking the headset
- Auto answer lets you answer/end calls by removing/replacing the headset from the base
- Use with Electronic Hookswitch Cable or Handset Lifter to remotely answer/end calls (sold separately)

#### Outstanding Audio Quality

- DECT technology provides better audio; eliminates interference from Wi-Fi networks
- Advanced wideband audio using CAT-iq technology for high definition voice quality
- SoundGuard™ technology protects against audio spikes
- Noise-canceling microphone reduces background noise interruptions, ensuring great audio quality
- Enhanced Digital Signal Processing (DSP) provides more natural sounding voice

#### CS540 84693-01

- All of the features shown above plus:
  - Choose from three comfort-tested and customizable wearing options

#### CS550/HL10 84693-11

- Includes CS540 headset & HL10 handset lifter

#### CS520 84692-01

- All of the features shown above plus:
  - Up to 9 hours talk time on a single charge

#### CS520/HL10 84692-11

- Includes CS520 headset and HL10 handset lifter

#### TR-11 Adapter cable that allows any of the CS500 Series to be used with a home analog telephone line

### HW500 SERIES

#### HW510

- Noise Canceling EncorePro Monaural Call Center Headset
- P/N: 89433-01
  - Flexible noise-canceling boom
  - Wideband audio delivers richer, clearer conversations
  - SoundGuard technology protects from noise spikes
  - Quick Disconnect
  - Designed for call-intensive environments
  - Laser-welded construction to provide reliability where it matters.

#### HW510V

- Voice Tube EncorePro Monaural Call Center Headset
- P/N: 89435-01
  - User replaceable voice tube
  - Wideband audio delivers richer, clearer conversations
  - SoundGuard technology protects from noise spikes
  - Quick Disconnect
  - Designed for call-intensive environments
  - Laser-welded construction to provide reliability where it matters.

#### HW520

- Noise Canceling EncorePro Binaural Call Center Headset
- P/N: 89434-01
  - Flexible noise-canceling boom
  - Wideband audio delivers richer, clearer conversations
  - SoundGuard technology protects from noise spikes
  - Quick Disconnect
  - Designed for call-intensive environments
  - Laser-welded construction to provide reliability where it matters.

#### HW520V

- Voice Tube EncorePro Monaural Call Center Headset
- P/N: 89436-01
  - User replaceable voice tube
  - Wideband audio delivers richer, clearer conversations
  - SoundGuard technology protects from noise spikes
  - Quick Disconnect
  - Designed for call-intensive environments
  - Laser-welded construction to provide reliability where it matters.

#### HW530

- Noise Canceling EncorePro Over-The-Ear Monaural Call Center Headset
- P/N: 89434-01
  - Flexible noise-canceling boom
  - Wideband audio delivers richer, clearer conversations
  - SoundGuard technology protects from noise spikes
  - Quick Disconnect
  - Designed for call-intensive environments
  - Laser-welded construction to provide reliability where it matters.

#### HW540

- Noise Canceling EncorePro Convertible Monaural Call Center Headset
- P/N: 89437-01
  - Over-the-head, behind-the-head, over-the-ear wearing styles
  - Flexible noise-canceling boom
  - Wideband audio delivers richer, clearer conversations
  - SoundGuard technology protects from noise spikes
  - Quick Disconnect
  - Designed for call-intensive environments
  - Laser-welded construction to provide reliability where it matters.

VOYAGER 3200 UC

When your days are non-stop, slowing down isn’t an option. But just because the world is your office doesn’t mean it has to look, or sound that way. Voyager 3200 UC has a sleek, discreet design and 3-mic noise-cancelling technology, giving you the confidence to talk anytime, anywhere. Easy to put on and take off, it keeps pace with your busy schedule while its advanced audio management keeps you in control of the conversation. Precision tuned triple-mic with enhanced DSP for superior noise cancellation.

Features Include:
• Dynamic mute alert senses and alerts you when you begin to speak while muted
• Work seamlessly across smartphones, laptops, and tablets
• Activate Siri, Google Now, or Cortana with the touch of a button to call phone contacts, send messages, or schedule meetings
• Rigorously tested ergonomic design for long-wearing comfort
• Up to 6 hours, up to 10 extra with charging case; up to 7 days standby time
• Roaming range Up to 98 feet (30 metres) with Class 1 enabled device
• Triple-mic DSP noise-cancelling technology, mobile wideband compatibility: up to 6,800 Hz; echo cancellation, proprietary DSP, A2DP
• Call answer/ignore/end/redial, mute, volume +/-, smartphone VPA access, power on/off
• Includes charging case, BT600 USB Bluetooth adapter, ear tips, micro USB cable
• NFC capable

VOYAGER 8200 UC

Wherever work takes you, the Plantronics Voyager 8200 UC Bluetooth® headset is ready to block background noise so you can concentrate on your work, your call or your playlist. Its contemporary, boomless design delivers comfort and style, while dual-paired microphones deliver Plantronics’ signature audio quality and clarity. Switch seamlessly from phone to laptop. By staying connected to two devices at once, you’ll never miss a call. And with two levels of active noise canceling, 24 hours of listen-time and hi-fi stereo sound, Voyager 8200 UC helps you focus on the moment and leave distractions behind.

Features Include:
• Up to 24 hours listen, 20 hours talk, up to 1 month standby time
• Bluetooth 4.1 - Up to 98 feet range (30 meters) with Class 1 enabled device
• Dual-paired omni-directional microphones with enhanced digital signal processing (DSP) optimize your voice while minimizing background noise
• Best-in-class dual-mode active noise canceling (ANC) lets you choose your preferred noise reduction level
• Touch to pair with NFC-enabled devices
• Dynamic mute alert detects and notifies you when you talk while on mute
• Smart sensors allow you to answer calls by simply putting on the headset and automatically mute your calls or pause your music by taking it off
• Contemporary, boomless design satisfies style-conscious professionals
• 3.5 mm cord extends your listening time and is optimal for in-flight use
• Includes USB charge cable, 3.5mm audio cable, BT600 USB Bluetooth adapter, carrying pouch
The Hitachi Cable Warranty
Hitachi Cable America, through its certified installers, offers a lifetime product and performance warranty on all registered projects. This warranty covers not only HCA™ cable, but the connectivity as well. So, if you are installing a solution that includes Hitachi Brand Category 5e, 6 or 6A cables, and connectivity from manufacturers like Hubbell, HellermanTyton, Siemon or Leviton, you can have the benefit of a lifetime warranty.

### Category 5e PLENUM
- For 10/100 Mbit Ethernet
- Tested from 1 to 400 MHz
- 24AWG Twisted Pair Solid Copper Conductors
- Low-Smoke, Flame-Retardent Thermoplastic Jacket
- Exceeds EIA/TIA Category 5e Requirements
- 1000-Foot Box with Rip Resistant Handles

### Category 5e & 6 Outdoor
- REACH & RoHS 2 compliant.
- Category 5e tested to 400 MHz.
- Category 6 tested to 660 MHz.
- Suitable for direct burial, lashed aerial, duct & underground conduit applications.
- Cable core flooded with water-blocking gel.
- Rugged black polyolefin jacket.
- UV resistant jacket
- Supports up to 80 watts of PoE power

### Category 6A Outdoor
- REACH & RoHS 2 compliant.
- Tested to 660 MHz.
- Suitable for direct burial, lashed aerial, duct & underground conduit applications.
- Cable core flooded with water-blocking gel.
- Rugged black polyolefin jacket.
- UV resistant jacket
- Supports up to 100 watts of PoE power

**Applications:**
- 10G Base-T 10 Gigabit Ethernet
- 1000 Base-T gigabit Ethernet
- 100 Base-T Ethernet
- 10 Base-T Ethernet
- Broadband video

30025-8-GA-2  Gray, 1000-foot Box  26.0 lbs

Category 6 ECO     RISER
• Tested from 1 to 555 MHz
• No Internal Pair Separator
• Component Compliant to TIA Category 6 Cable Requirements
• Small Outside Diameter Permits More Cables per Conduit than typical Category 6 Cable
• Packaged in a box made with recycled materials
• Packaged in a smaller box than typical Category 6 cable
• Flame-Retardant Thermoplastic Jacket
• Available with a Lifetime Warranty* (installer certification required) • UL Verified for Category 6 Performance

Part#  Description  Ship Weight
30238-8-BL-2  Blue, 1000-foot Box  23.12 lbs
30238-8-WH-2  White, 1000-foot Box  23.12 lbs

Fiber Optic Cable  
Remee has been manufacturing fiber optic cable for decades and has invested in the manufacturing of fiber optic cables in order to keep pace with changing technologies. In order to continue to produce the highest quality product, they provide: testing, scheduling and training specific to fiber optic cables.

They produce:  
- Indoor & outdoor fiber optic cable  
- Armored & unarmored configurations  
- Polyethylene, Low Smoke Zero Halogen & PVC jacket types  
- 2 – 288 fibers  
- SM, MM, OM3 & OM4 configurations  
- 10 Gb fiber types

Their fiber optic cable is suited for most applications including demanding conditions such as:  
- Transit  
- Mining  
- Light rail  
- Wind farms  
- Data centers - REMCORE, Remee’s Smaller OD Cables

The models listed below are some of the most popular fiber products we carry, but if Remee makes it we can get it for you — so let Target and Remee help you get the exact fiber product you’re looking for. (MOQ may apply on certain configurations).

*12 gauge to 22 gauge is available in shielded, non-shielded and plenum & non-plenum.
EnSpire™ Series UPS Systems
• Eight outlets, four provide battery support along with spike and surge protection and four with spike and surge protection only
• USB communications (except EN350)
• Hot-swappable batteries • Tool-less battery access
• RJ11/45 Network/Phone/Fax protection
• Transformer-friendly receptacles • Built-in self-diagnostics testing
• Audio & Visual alarms • Wall Mountable

EnSpire™ LCD Series UPS Systems
• Ten outlets, five provide battery support along with spike and surge protection and five with spike and surge protection only • LCD front panel display • USB communications
• Hot-swappable batteries • Tool-less battery access
• RJ11/45 Network/Phone/Fax protection • ECOM (EN900LCD)
• Transformer-friendly receptacles • DC Startup capability
• Independent Battery Bypass • Built-in self-diagnostics testing
• Audio & Visual alarms • Wall Mountable

SMX3000LV
• Only 19” deep • 2700W / 3000VA
• (6) 5-15R Outlets • (1) L5-30R Outlet • 3 switched outlet groups
• Intuitive LCD interface • Provides clear and accurate information in multiple languages with the ability to configure the UPS locally with easy to use navigation keys
• High frequency design • Reduces or eliminates bulky transformers resulting in lighter units for ease of handling
• Auto recognition of external batteries • UPS recognizes when external battery packs are attached and automatically adjusts runtime
• Predictive replace battery date • Dynamically provides the month and year when battery replacement is recommended to aide in long term maintenance planning
• Energy meter • Provides actual kilowatt hours of usage for energy conscious users

SMX120BP
• Hot-swappable • Rack/Tower convertible • User replaceable

SMX120RMBP2U
• Hot-swappable • Rack/Tower convertible • User replaceable

SRW26USDP
• SmartRack 26U UPS-Depth Wall-Mount Rack Enclosure Cabinet with Hinged Back
• Perfect for network wiring closets, retail locations, classrooms, back offices and other areas with limited floor space where you need equipment to be secure, organized and out of the way
• EIA-standard 19 in. rack equipment in 26U of space
• Maximum load capacity of 250 lb. • Ships fully assembled for quick installation
• Swings away from the wall to allow easy back-door access to equipment and cabling during installation and maintenance
• Rotate cabinet 180° before mounting to open reversible doors left or right
• Side panels and doors lock securely to help prevent damage, tampering or theft
• Vented panels allow generous airflow that keeps equipment cool
• Convenient ports with removable covers allow cable routing through top and bottom
• Wall-mounting holes spaced 16 in. apart for standard wall stud placement
• Vertical mounting rails adjust in 7/8 in. increments to accommodate equipment up to 24.5 in. deep, such as network switches, UPS systems, battery packs and cabling
• Rails support square-hole or 12-24 threaded-hole mounting
• Rack spaces numbered for easy reference
• Provides physical equipment and media security required for PCI DSS (Payment Card Industry Data Security Standard) compliance
TPU100B
100-Watt Telephone Paging Amplifier
- 100 watt model specially-designed for telephone paging systems
- 3 inputs: 1 TEL, 1 MIC (Lo-Z), 1 music (Hi-Z)
- 600-ohm balanced TEL input for direct connection to page ports
- TEL input has Automatic Level Control (ALC) for constant page announcement level
- Separate MIC input for a low-impedance push-to-talk microphone
- Music input – mutable by external contact closure or activity on TEL input
- Aphex® Aural Exciter circuitry improves voice intelligibility and crispness
- Separate volume controls for tone, paging, background music, and night ringer
- Built-in night ringer can be activated from 90V ring signal or external contact closure
- 25V and 70V constant voltage outputs, balanced and unbalanced
- Wall-mount design provides minimum protrusion from backboard
- Easily accessible, recessed front-panel controls
- Thermal and electronic overload protection

SPT15A 15-Watt Paging Horn
- High intelligibility and efficiency; ideal for both one-way and talk back applications
- Weatherproof
- 15 watts; 25/70 volt
- Tilt and swivel base
- Tap settings for 70V: 15, 7.5, 3.8, 1.8, 0.9 watts
- Screw terminals make installation fast and easy
- All-purpose mounting bracket
- Self-aligning, field replaceable diaphragm
- Mocha enamel finish
- Limited lifetime warranty

IP PAGING
VIP-801
1 Port Page Zone Extender
- 1 Audio Output
- 2 Programmable Form C Relay Closures
- RJ-45 For Network Connection
- No Server Required
- 1 to 11 Digit Dial Plans
- Easy Windows Based Setup
- AUX Audio input
- Contact Closure Available for: Audio Indication & Door Unlocking

VIP-120
SIP One-Way 8" Ceiling Speaker
- PoE (802.3af) – High-Efficiency 8" Speakers
- Durable Electrostatic Powder Coat Finish on Metal Surfaces
- Output Level 103 db/Meter
- Line Output Supports Valcom Amplified Speakers

VIP-402
SIP One-Way 2 x 2 Lay In Speaker
- PoE (802.3af) – High-Efficiency 8" Speaker
- Durable Electrostatic Powder Coat Finish
- Output Level 103 db/Meter
- Line Output Supports Valcom Amplified Speakers
- Backbox Included

VIP-130L
SIP One-Way Horn with Long Line Extender
- 5-Watt IP Horn - PoE (802.3af) – Weather-Resistant
- Includes Long Line Extender for Cabling Up to 1200 Feet
- Indoor/Outdoor
- Beige (BG), Gray (GY), and Marine White (W)
- 24 Vdc/120 Vac Power Supply
- 24 Volt DC 8" Battery Power Supply – Input Thermal Fuse Protected
- Floating Output – Through Ground Connection – UL, CSA

PCMSYS3
3-Zone PCM System
The PCMSYS3 is a pre-assembled and tested 3-zone PCM system with a PCMSYS2 power supply. Use it right out of the box for 1 to 3 zone applications or expand it with other PCM modules.

Includes:
1 PCMTIM Telephone Interface module
1 PCMCPU Central Processor module
1 PCMZPM 3-Zone Paging module
1 PCMSYS2 System Power Supply

Features:
- Provides 1 to 3 paging zones
- Expandable up to 99 zones
- Up to 32 programmable paging zone groups
- Emergency All-Zone Override Paging input
- Two-way Communications
- 250V power handling capacity
- Code Calling
- Background music distribution
- Works with systems that are central- or self-amplified
- Drives up to 40 self-amplified speakers per zone module
- Night Ringer, 90V and contact closure
- Real-time Clock & Master Clock Synchronization
- Some features described above require additional equipment
- Operates with 70V and self-amplified (24V) paging systems
- RJ11 jacks & terminal blocks
- Relay driver outputs
- Two C-form relay contacts
- Setup tone
- Program system features via DTMF
- Wall-mountable

Expansion:
- Add PCMZPM modules for up to 9 zones.
- Add PCMTIM module for talk back and realtime clock/tone applications.
- Add satellite assemblies for up to 99 zones.

V-2001A
1 One-Way, 1 Zone, Enhanced Page Control
- Telephone System CO Port Access
- Page Port Access
- Page Override
- Background Music Input & Volume Control
- Page Outputs With Or Without Music
- Built-in Power
- Internal Tone Generator With Volume Control
- Battery Feed Switch For Loop Start CO Port Access
- RJ 11 Modular Plug For Page Access
- AC Powered
- Battery Backup Input
- Switch Selection Of Tones/Output
- Will Work With Single Line Telephone For Access
- UL/CSA/CE

V-1020C
8-Inch One-Way Ceiling Speaker
- Exceptional Voice & Music Reproduction
- Switchable Tones
- Volume Control
- RJ 11 Modular Plug For Page Access
- Will Work With Single Line Telephone For Access
- UL/CSA/CE

V-1030C
One-Way, 5 Watt Amplified Horn
- Utilizes Standard Telcom/Datacom Wiring CAT 3/5/6
- Weather-Resistant For Indoor/Outdoor Use
- Omni-Lock Mounting System
- Built-in Volume Control
- Built-in Amplifier
- Includes I-Beam Clamp
- Available in Beige, Gray and White

V-3022A-2
One-Way, Amplified 2 x 2 Lay-In Ceiling Speaker
- Easy Lay-in Mounting
- Replaces 2 x 2 Ceiling Tile
- Speaker Wired With Premade Rated Cable
- 2 Audio Inputs
- Backbox Meets Or Exceeds A.S.T.M. E84
- Flame And Smoke Test - 3 Hour Burn UL 181
- Durable White Acrylic Baked Enamel Finish
- Sold in Packages of 2 Only

V-1124D 1 Amp, -24 Vdc Switching Power Supply
- Available for 100-230 Volt 50-60 Hz
- UL, CSA, CE Listed
- Brownout Protection

CABLE MANAGEMENT

BATWING J-HOOK MULTI-PACKS

Ceiling Mount
ICCMSJHW22  25-Pack
3/4" Batwing J-Hook
- For CAT 5e, CAT 6, CAT 6A, coax, fiber optic cables, and conduit • Made of high quality galvanized steel • Rust resistant zinc finish • Smooth edges protects cables & facilitates bend radius • Supports up to 25 lbs. of weight

Ceiling Mount
ICCMSJHW33  25-Pack
1-5/16" Batwing J-Hook
- For CAT 5e, CAT 6, CAT 6A, coax, fiber optic cables, and conduit • Made of high quality galvanized steel • Rust resistant zinc finish • Smooth edges protects cables & facilitates bend radius • Supports up to 25 lbs. of weight

Ceiling Mount
ICCMSJHW55  25-Pack
4" Batwing J-Hook
- For CAT 5e, CAT 6, CAT 6A, coax, fiber optic cables, and conduit • Made of high quality galvanized steel • Rust resistant zinc finish • Smooth edges protects cables & facilitates bend radius • Supports up to 25 lbs. of weight

Wall Mount
ICCMSJHK44  25-Pack
2" Batwing J-Hook
- For CAT 5e, CAT 6, CAT 6A, coax, fiber optic cables, and conduit • Reinforced body to withstand more payload • Made of high quality galvanized steel • Rust resistant zinc finish • Smooth edges protects cables & facilitates bend radius • Designed with anchor points that can be secured with cable ties

Ceiling Mount
ICCMSJH944  25-Pack
2" Batwing J-Hook
- For CAT 5e, CAT 6, CAT 6A, coax, fiber optic cables, and conduit • Reinforced body to withstand more payload • Made of high quality galvanized steel • Rust resistant zinc finish • Smooth edges protects cables & facilitates bend radius • Swivel angle bracket allows for J-Hook to be ceiling mounted & pivot from 0° to 180°

Ceiling Mount
ICCMSJH955  25-Pack
4" Batwing J-Hook
- For CAT 5e, CAT 6, CAT 6A, coax, fiber optic cables, and conduit • Reinforced body to withstand more payload • Made of high quality galvanized steel • Rust resistant zinc finish • Smooth edges protects cables & facilitates bend radius • Supports up to 25 lbs. of weight

VC120 1080P FULL-HD VIDEO CONFERENCING

VC120-12X Phone Key Features
- 12X optical PTZ camera, 360°/10ft wired microphone array
- Dual display and content sharing
- Local USB HD recording and playback
- Yealink intelligent firewall transversal
- Bandwidth adaptive and 8% resistance packet loss
- Includes VC120 Codec, VCC12 PTZ camera, VCP40 VCS Phone, VCR10 remote control, power adapter and cables. Includes 1-year AMS

VC120-12X Pod Key Features
- 12X optical PTZ camera, 360°/10ft wired microphone array
- Dual display and content sharing
- Local USB HD recording and playback
- Yealink intelligent firewall transversal
- Bandwidth adaptive and 8% resistance packet loss
- Includes VC120 Codec, VCC12 PTZ camera, VCM30 Microphone Array, VCR10 remote control, power adapter and cables.
- Includes 1-year AMS

YEALINK VC MOBILE
VC Mobile for iOS and Android Tablet / Smart phone
Yealink VC Mobile being compatible with iOS 8.0, Android 4.4 or later, as a new type app launched by Yealink used for a high definition video conferencing, extended this kind of video conferencing to such mobile staff as a tablet or smart phone. As a new and very innovative product, Yealink VC Mobile is the ideal partner for you to have a mobile and HD video conferencing.

Key Features
- HD Video/Audio
- H.323/SIP dual-protocol support
- H.264 High Profile, saving 50% bandwidth
- Bandwidth Adaptable
- Yealink Intelligent Firewall Transversal
- 720P (1280 x 720) screen resolution
- Supported Hardware and Software
  - iOS devices (iOS 8.0 or later):
    - iPhone 5 and above - iPad 3 and above - iPad mini and iPad Pro
  - Android devices (Android 4.4 or later):
    - Android Smartphone - Android Tablet

YEALINK VC DESKTOP
VC Desktop Software for PC
Yealink VC Desktop for Windows® is the latest addition to Yealink’s innovative One-stop Video Conferencing Solution, mainly for the people who work in the office, in business travel or at home. Yealink VC Desktop is a high-quality, best-in-class high definition (HD) video collaboration program created to streamline communication for today’s businesses. The product offers an optimal one-click setup process with rapid automatic installation, eliminating the need for lengthy, manual efforts.

Key Features
- HD Video/Audio
- Full HD Content Sharing
- H.323/SIP dual-protocol support
- H.264 High Profile, saving 50% bandwidth
- Bandwidth Adaptable
- Yealink Intelligent Firewall Transversal
- One-click Setup and Ease-of-use
- For PC only

VC800 Videoconferencing System with CP-960 Conference Phone and Wireless Microphones

The VC800 is the second generation full-HD video conferencing system launched by Yealink. Equipped with the strongest embedded MCU in the industry, VC800 can support 24-site HD video conferencing plus two virtual meeting rooms. It has an all-in-one design and first-class video and audio technology that creates an easier and more effective collaboration experience. As the newest generation of Yealink VC series video conferencing systems, the VC800 adopts an intuitive user interface that makes meeting control simpler. Featuring H.265/HEVC, Opus and HD voice backed by Harman Kardon designed speaker, the Yealink VC800 facilitates more immersive audio-visual collaboration. By leveraging Yealink Meeting Server(YMS), the VC800 seamlessly supports Meeting Scheduling and One-touch Meeting Access. All combine to make VC800 one of the perfect solution for the medium-to-large meeting rooms.

Powerful Built-in MCU
The Yealink VC800 supports up to 24 sites of HD video conferencing and two virtual meeting rooms. Meanwhile, it backs up Automatic Voice Activated Switching and local meeting control, making meetings orderly and easy to join.

Immersive Audio-Visual Experience
Using a new 12x optical PTZ camera, it supports 1080P/60FPS video calls, thus making the conference itself and presentations more vivid. In conjunction with the Yealink CP-960 conference phone, the Yealink VC800 creates a better audio solution because it is backed by a Harman Kardon speaker as well as an Opus codec, two DECT-based wireless expansion microphones and quality 20ft/360° voice pickup distance.

Easier Meeting Experience and Simpler Deployment
The all-in-one design which combines codec and camera together, requires only one standard RJ45 network cable to connect to TV area and conference table. Moreover, its 5-inch touchable VCS phone makes joining and controlling the meeting simpler and more intuitive, and its friendly TV-style user interface helps you minimize the learning curve.

Less Bandwidth, Better Network Adaptability
Via supporting H.265/HEVC video codecs, with just a minimum of 512kpbs, 1080P HD video calls can be realized, thus saving more than 50% bandwidth than when using H.264. Thanks to Yealink’s anti-packet loss technology, the VC800 can resist up to 30% video and audio packet loss guaranteeing smooth video communication.

Compatibility and Integration
The Yealink VC800 supports standard H.323/SIP dual protocol. It is not only deeply integrated with Yealink Meeting Server (YMS), supporting Meeting Scheduling and One-touch Meeting Access; but also works with Yealink Cloud Management Service, bringing quick deployment. Also, it supports 3rd-party room systems and integrates with the leading cloud platforms.

Features at-a-glance:
- Built-in 8-site multipoint MCU; can be expanded to 24-sites via license in increments of 8
- 1080P/60FPS and 12x optical PTZ camera
- H.265/HEVC video codec, 1080P from 512kpbs bandwidth
- Super video packet loss recovery technology, resistant up to 30%
- 5-inch touchable conference phone with Harman Kardon speaker
- Two DECT-based wireless expansion microphones
- Two HDMI outputs and two HD content inputs (HDMI + Mini-DP)
- Cloud Plattform Integration: Yealink Cloud, Yealink Meeting Server, StarLeaf, Pexip, Mind, Zoom and BlueJeans

RealPresence CENTRO – VISUAL COLLABORATION SOLUTION

7200-23270-125  
RealPresence Centro  
Visual collaboration solution with integrated Codec, 360 degree Cam, MicArray, Speakers, Casters, 4 27” Touch Displays, 2 Remotes, Microsoft Interop. Power Cord & Maintenance Required.

Designed for small groups and classrooms, RealPresence Centro embraces natural human instincts and advanced technology to draw people together into a powerful, collaborative circle, giving everyone equality of contribution regardless of where they are located. It serves as a collaboration and content sharing hub.

- Intelligent 360° camera captures everyone in the room
- Optimized monitor placement allows everyone to sit in comfort and maintain visual connection
- Sit, stand, or walk around the room without ever worrying if you’re still ‘on camera’
- Common and intuitive touch interface can be used by even the most infrequent users with no training
- Tight integration with Microsoft Outlook allows anyone to start the collaborative session with a single touch
- Centro’s integrated microphones capture even the most soft-spoken people from anywhere in the room
- Powered speakers reproduce Polycom-quality audio so that every inflection is heard clearly
- RealPresence Centro gives equal access to anyone in the room or far site to share, annotate, and save content.
- Use the People+Content IP application to wirelessly share from a PC or Mac
- Always on and ready - 4X USB ports for BYO device charging • Built-in casters for moving the system with ease
- Users easily know system, call, and mute status with a glance at 360° LCD
- Video privacy is a simple touch to hide the camera • Easily start, stop, and playback session recordings from your personal device
- Polycom SmartPairing for wireless content sharing from mobile devices and laptops
- Polycom Lost Packet Recovery (LPR) technology
- Media Encryption (H.233, SIP): AES-128
- H.233 and SIP support
- Full 1080p HD content for sharing even the most detailed documents with clarity
- HDMI input for content sharing • Polycom SmartPairing for wireless content sharing from mobile devices and laptops
- Compact design fits atop flat panel displays: 13.4” W x 3.7” H x 1.8” D • Full 1080p video quality for sharp, clear images
- Integrated dual stereo microphones, optional expansion microphone available • Polycom NoiseBlock technology to eliminate distracting background sounds
- Display with integrated speakers and power distribution panel • Media Encryption (H.323, SIP): AES-128

RealPresence DEBUT – COLLABORATION FOR SMALLER ROOMS

7230-69725-001  
RealPresence Debut  
1080p: all-in-one HD codec with build-in mechanical pan/tilt cam & mic, remote, NTSC/PAL. Cables: 1 HDMI 1.8m, 1 CAT 5E LAN 3.6m, Power: AMER - Type B, NEMA 5-15. Includes 1 Yr Premier Srvc. Maintenance contract required.

Polycom RealPresence Debut is an enterprise grade video conferencing solution made simple, elegant, and affordable for huddle rooms and smaller spaces. It also delivers cost-effective collaboration for smaller organizations that are ready to move up from consumer-grade alternatives, which are great for chatting with friends but don’t get the job done at work.

- 1080p video quality for sharp, clear images
- Full 1080p HD content for sharing even the most detailed documents with clarity
- Compact design fits atop flat panel displays: 13.4” W x 3.7” H x 1.8” D • Power over Ethernet support for single-cable for power and data
- Integrated dual stereo microphones, optional expansion microphone available • Polycom NoiseBlock technology to eliminate distracting background sounds
- Polycom Lost Packet Recovery (LPR) technology • H.323 and SIP support • Media Encryption (H.323, SIP): AES-128

RealPresence GROUP CONVENE

7200-52850-001  
Polycom RealPresence® Group Convene™  
RealPresence Group Convene media dock. Includes: desk/tabletop stand, 27” LED display, audio syst., single power supply, cable management, codec mount and service in CALA/China. Order codec (310 or 500) and Wall mount separately. Maintenance contract required.

Polycom® RealPresence® Group Convene™ delivers rich video and content experiences for small groups and personal collaboration. It is a flexible system that works together with the Polycom® RealPresence® Group 310 or Polycom® RealPresence® Group 500, allowing you to deploy the right solution based on the unique needs of each room or environment. Choose from single or dual-displays, optional built-in multipoint, and more. It’s an attractive and simple way to extend collaboration to huddle rooms, smaller meeting spaces, and open workspaces—wherever people gather.

The RealPresence Group Convene solution consists of two components which are purchased separately:
- RealPresence Group 310 or 500 with Polycom® EagleEye™ Acoustic camera • RealPresence Group Convene media accessory

Package Contents
- Display with integrated speakers and power distribution panel • Tabletop/desktop stand • Power supply • Assembly hardware

RealPresence Group Series system sold separately. Compatible with RealPresence Group 300, 310 and 500.

Pano – WIRELESS 4K CONTENT SHARING

7200-84685-001  
Polycom® Pano™ Wireless Content Sharing Device  
Polycom Pano acts as a 4k Ultra HD content sharing hub. It connects to almost any HD display using HDMI. A simple on-screen guide helps you connect devices to the Pano wirelessly or through the LAN. You can compare up to four content streams simultaneously, use your smartphone’s camera as a live document camera, connect touch displays for live annotation and collaboration, and much more! It can even be used for video conferencing.

Polycom Pano is compatible with Apple AirPlay and Windows Miracast, so you can connect via those methods. Use the Pano app. available for free on Polycom’s website, to connect your PC or Mac. The Pano connects to your LAN using Gigabit Ethernet, and is a PoE+ Class 4 device. The device also has secure WiFi and Bluetooth 4.0 support. This device allows you to securely share presentations, spreadsheets, 4k video, live video, and more from whichever device you want to use: PC, Mac, tablet, or smartphone.
The sleek, compact design of the RealPresence Group 310 device allows for discreet placement and helps simplify your setup with single-cable connections for video and audio. Plus, the compact design also makes it ideal for mobile applications, whether moved to different locations within a building or outside of a traditional office. Optimized for smaller groups, the Polycom RealPresence Group 310 is ideal for small meeting rooms, huddle rooms, and offices. It features simple setup and configuration, and a compact, sleek design that is easily hidden out of sight, keeping your rooms clutter-free.

- 1080p60 video (with optional license), delivering a new level of clarity and realism
- 1080p60 content (with optional license), making everything from presentation slides to full-motion video look as natural as being there
- Polycom Constant Clarity™, a set of industry-leading audio technology that dramatically improves the sense of realism
- Polycom SmartPairing™ technology, making it simple to use your own tablet to start and manage video calls
- Optional Polycom Touch Control for an intuitive graphical touch interface on a 7-inch (18-cm), high resolution screen
- Standards-based interoperability with millions of video conferencing systems in use today
- Up to 8-way integrated multi-point (select models, via optional license key), enabling more people to join calls without requiring a separate bridge
- HDMI inputs and outputs for simplified installation and cabling
- Native interoperability with Microsoft Lync without expensive and complex gateways
- Telepresence Interoperability Protocol (TIP) support, for direct connection to non-standards-based Cisco environments
- Interoperable SVC architecture, providing video calling between both existing video systems and new SVC systems
- H.264 High Profile standard, content and integrated multi-point, for up to 50% bandwidth savings

Polycom RealPresence® Group 500

The RealPresence® Group 500 is ideal for conference rooms and other collaborative environments, from small meeting rooms to larger rooms with dual screens.

- 1080p60 video (with optional license), delivering a new level of clarity and realism
- 1080p60 content (with optional license), making everything from presentation slides to full-motion video look as natural as being there
- Polycom Constant Clarity™, a set of industry-leading audio technology that dramatically improves the sense of realism
- Polycom SmartPairing™ technology, making it simple to use your own tablet to start and manage video calls
- Optional Polycom Touch Control for an intuitive graphical touch interface on a 7-inch (18-cm), high resolution screen
- Standards-based interoperability with millions of video conferencing systems in use today
- Up to 8-way integrated multi-point (select models, via optional license key), enabling more people to join calls without requiring a separate bridge
- HDMI inputs and outputs for simplified installation and cabling
- Native interoperability with Microsoft Lync without expensive and complex gateways
- Telepresence Interoperability Protocol (TIP) support, for direct connection to non-standards-based Cisco environments
- Interoperable SVC architecture, providing video calling between both existing video systems and new SVC systems
- H.264 High Profile standard, content and integrated multi-point, for up to 50% bandwidth savings

Polycom RealPresence® Group 700

Video collaboration is mission-critical for productive and efficient meetings when everyone can’t be in the same location. In many environments getting the most out of video meetings requires multiple displays, flexible audio configurations, and the ability to easily switch between many content sources. The Polycom RealPresence Group 700 is the ideal solution for meetings that require the best performance and flexibility, from boardrooms to large lecture halls.

- 1080p60 video (with optional license), delivering a new level of clarity and realism
- 1080p60 content (with optional license), making everything from presentation slides to full-motion video look as natural as being there
- Simultaneous dual-stream 1080p60 people and content (Group 700) (with optional license)
- Polycom Constant Clarity™, a set of industry-leading audio technology that dramatically improves the realism
- Polycom® Lost Packet Recovery™ (LPR™) technology protects the experience by helping to ensure great quality even when experiencing network issues
- Polycom SmartPairing™ technology, making it simple to use your own tablet to start and manage video calls
- Up to 8-way integrated multi-point (select models, via optional license key), enabling more people to join calls without requiring a separate bridge
- HDMI inputs and outputs for simplified installation and cabling
- Standards-based interoperability with millions of video conferencing systems in use today
- Native interoperability with Microsoft Lync without expensive and complex gateways
- Telepresence Interoperability Protocol (TIP) support, for direct connection to non-standards-based Cisco environments
- Interoperable SVC architecture, providing video calling between both existing video systems and new SVC systems
- H.264 High Profile standard, content and integrated multi-point, for up to 50% bandwidth savings

Polycom RealPresence® Group 310

The sleek, compact design of the RealPresence Group 310 device allows for discreet placement and helps simplify your setup with single-cable connections for video and audio. Plus, the compact design also makes it ideal for mobile applications, whether moved to different locations within a building or outside of a traditional office. Optimized for smaller groups, the Polycom RealPresence Group 310 is ideal for small meeting rooms, huddle rooms, and offices. It features simple setup and configuration, and a compact, sleek design that is easily hidden out of sight, keeping your rooms clutter-free.

- **Polycom’s Award Winning Acoustic Clarity Technology for natural, simultaneous two-way conversations**
- **High performance mics and speaker for the best conferencing experience possible**
- **1.9GHz DECT 6.0 Wireless for interference-free conversation**
- **Enough talk time to go wireless for a week without recharging**
- **150 ft. wireless range**
- **Portable charger allows for continued operation anywhere even when battery is low**
- **Rechargeable Li-Ion battery**
- **Portable console charger**
- **46 bit Voice encryption for added security**
- **Aux out (record) activated from console**
- **Great for group conferencing in facilities or temporary work spaces where there is no analog phone line. Connect a cell phone to the 2W via the standard headset cable for calls from anywhere service is available**
- **Software upgradeable through mini-USB port**
- **Easy to install, can be mounted on wall**

**Accessories**

- **Expansion Microphone Kit for SoundStation2W. Includes two (2) expansion mics and two (2) 3m/9.7ft expansion mic cables**
- **Neoprene carry case for SoundStation2W**
- **Computer Calling Kit-enables use of SoundStation2W as speakerphone for VoIP calls via computer based softclients. 1.5m cable connects conference phone to a computer’s 3.5mm mic/in and line out jacks.**
- **Computer Calling Kit-use SoundStation2W with LCD. 1.5m/5ft cable connects phone to a computer’s 3.5mm mic/line in and line out jacks**
- **Two (2) expansion microphone cables. 4.6m/15’ for SoundStation2W (Expandable)**
## SoundStation SIP CONFERENCE ENDPOINTS

### SoundStation® IP 5000
- **Model:** 2200-30900-025 PoE Only
- **Features:**
  - Polycom HD Voice technology
  - Patented Polycom Acoustic Clarity™ technology
  - 7-foot microphone pickup and a small footprint designed for executive offices and smaller rooms
  - With up to 6 participants
  - Compatible with a broad array of SIP call platforms
  - High-resolution display
  - Integrated Power over Ethernet (PoE) for easy installation. Optional AC Power Kit
  - Resists interference from mobile phones and other wireless devices
  - **Accessories:** 2200-43240-001 AC Power Kit for SoundStation IP5000. Includes power supply, 1.8m/6ft power cord and a Power Insertion Cable (PIC).

### SoundStation® IP 6000
- **Model:** 2200-15600-001 Expandable AC/PoE 2200-15600-001 Expandable PoE Only
- **Features:**
  - Polycom HD Voice technology
  - Patented Polycom Acoustic Clarity™ technology
  - 12-foot (4-meter) microphone pickup — ideal for small to midsize conference rooms.
  - Add even greater range with optional expansion mics
  - Strong, robust SIP software
  - Robust VoIP interoperability — Compatible with a broad array of SIP call platforms to maximize voice quality and feature availability
  - Resists interference from mobile phones and other wireless devices
  - **Accessories:**
    - 2215-07155-001 Expansion (EX) microphone kit for SoundStation IP6000. Includes two EX mics and two 7ft/2.3m cables
    - 2200-00699-001 Wireless Lapel Microphone with Frequency A = 171.905MHz for SoundStation IP 6000 and SoundStation IP 7000
    - 2200-42740-001 AC Power Kit for SoundStation IP 6000. Includes power supply, 6ft/1.8m power cord and Power-over-Ethernet Insertion Cable

### SoundStation® IP 7000
- **Model:** 2200-40000-001 Expandable PoE Only 2230-40300-001 Expandable AC/PoE
- **Features:**
  - Polycom HD Voice technology
  - Large high-resolution display with XHTML microbrowser
  - Robust VoIP interoperability — Patented Polycom Acoustic Clarity™ technology
  - Applications Port connects to mobile phones for dialing from rooms without an analog phone line, and connects to a PC
  - Strong, robust SIP software
  - 12-foot (4-meter) microphone pickup — ideal for small to midsize conference rooms.
  - Add even greater range with optional expansion microphones
  - Resists interference from mobile phones and other wireless devices

### SoundStation DUO CONFERENCE ENDPOINT
- **Model:** 2200-19000-0001 AC
- **Includes:** Power Supply, Power Cord with North American plug, Power Injection Module (PIM) with 6.4m combined PSTN/Cat5 cable, 2.1m RJ-11 PSTN cable, 2.1m Cat5 cable and Quick Start Guide
- **Accessories:**
  - 2200-15855-001 Expansion Microphone Kit for SoundStation Duo. Includes two expansion mics and 2.1m (7ft) cables

### The obvious choice for crystal clear group audio conferencing

Large organization or small, thousands of conference rooms or just one, you have a need to bring dispersed teams, business partners, and customers together to communicate and collaborate. Conference phones from Polycom have become the de facto standard for connecting groups of people across multiple locations. With the Polycom® SoundStation® Duo conference phone, Polycom has taken the concepts of group productivity tool and standard office workhorse to a new level for small to midsize rooms, delivering the ultimate in deployment flexibility, ease of use, and audio quality.

- Best-in-class investment protection — Operates in analog telephony environments and supports the migration to VoIP
- Broadest VoIP interoperability — Compatible with a broad array of SIP call platforms to maximize voice quality and feature availability while simplifying management and administration
- Polycom HD Voice technology
- Strong, robust SIP software — Leveraging the most advanced SIP endpoint software in the industry, with advanced call handling, security, and provisioning features
- Lower cost of deployment and administration — Web configuration tool makes setup simple and eliminates the need for a boot server
- Applications Port — Connects to mobile phones for dialing from rooms without an analog phone line, and connects to a PC or tablet to become a high-quality conference phone for Internet calling
- Resists interference from mobile phones and other wireless devices during delivering clear voice conferencing with no distractions
- Up to 10-foot (3-meter) microphone pickup range. Optional expansion microphones for even larger room coverage
### 10/100 SWITCHES

**FS105NA**
- **PROSAFE 5-PORT 10/100 SWITCH**
- Auto-speed and duplex mode sensing
- Versatile and compatible
- Budget friendly
- Store and forward

**FS108NA**
- **PROSAFE 8-PORT 10/100 SWITCH**
- Auto-speed and duplex mode sensing
- Versatile and compatible
- Budget friendly
- Store and forward

**FS105P**
- **PROSAFE 5-PORT 10/100 PoE SWITCH (PoE on up to 4 ports)**
- Auto-speed and duplex mode sensing
- Supply power to wireless access points and surveillance cameras over Cat-5 cabling
- IEEE 802.3af power on up to 4 ports
- Powers up to 4 Access points, 4 VoIP phones, 4 IP-based Surveillance cameras

**FS108P**
- **PROSAFE 8-PORT 10/100 PoE SWITCH (PoE on up to 4 ports)**
- Auto-speed and duplex mode sensing
- Supply power to wireless access points and surveillance cameras over Cat-5 cabling
- IEEE 802.3af power on up to 4 ports
- Powers up to 4 Access points, 4 VoIP phones, 4 IP-based Surveillance cameras

**FS116P**
- **PROSAFE 16-PORT 10/100 PoE SWITCH (PoE on up to 8 ports)**
- Auto-speed and duplex mode sensing
- Supply power to wireless access points and surveillance cameras over Cat-5 cabling
- IEEE 802.3af power on up to 8 ports
- Powers up to 8 Access points, 8 VoIP phones, 8 IP-based Surveillance cameras

### GIGABIT SWITCHES

**GS105E**
- **PROSAFE PLUS SWITCH, 5-PORT GIGABIT ETHERNET**
- 5 ports deliver up to 2000 Mbps bi-directional bandwidth
- Quality of Service (QoS)
- Network traffic monitoring
- Virtual LAN support
- Port mirroring
- Bandwidth management to avoid network congestions

**GS108E**
- **PROSAFE PLUS SWITCH, 8-PORT GIGABIT ETHERNET**
- 8 ports deliver up to 2000 Mbps bi-directional bandwidth
- Quality of Service (QoS)
- Network traffic monitoring
- Virtual LAN (VLAN) support
- Port mirroring
- Bandwidth management to avoid network congestions

**GS108PE**
- **PROSAFE PLUS 8-PORT GIGABIT SWITCH WITH 4 PORTS PoE**
- 8 x 10/100/1000 RJ45 Ports, Unmanaged with 4 ports of PoE
- 8 ports deliver up to 2000 Mbps bi-directional bandwidth on each port
- Quality of Service (QoS)
- Virtual LAN (VLAN) support
- Port mirroring
- Easy-to-manage web-based GUI

**GS110TP**
- **PROSAFE 8-PORT GIGABIT PoE SMART SWITCH WITH 2 GIGABIT FIBER SFP**
- 8 x 10/100/1000 Mbps PoE ports with 2 dedicated Fiber uplinks
- Auto VoIP, Auto Video and ACL wizard for easy network deployment
- Centralized management software for easy deployment and configuration

**GS116E**
- **PROSAFE + 16-PORT GIGABIT ETHERNET SWITCH**
- 16 Port Gigabit Ethernet Switch
- Auto Denial-of-Service Prevention
- VLAN Support & Broadcast Storm Control
- QoS and Bandwidth Management
- Plug-and-Play
- Windows Configurable

**GS116T**
- **PROSAFE 24-PORT GIGABIT SMART SWITCH**
- 24 10/100/1000 Mbps gigabit ports
- Easy, browser-based management
- 2 Small Form-factor Pluggable (SFP) GBIC slots
- Cable length detection reduces power usage when cable is shorter than 10 meters

**GS724T**
- **PROSAFE 24-PORT GIGABIT SMART SWITCH**
- 24 10/100/1000Base-T RJ45 Ports
- PoE Budget extended to 740W with supplemental RPS
- 2 dedicated 10G SFP+ ports supporting 10G and 1000M speeds
- 2 dedicated 10GBase-T copper ports supporting 10G/1G/100M speeds

**GS728TXP-100NES**
- **PROSAFE POE+ 28-PORT GIGABIT STACKABLE SMART MANAGED SWITCH WITH 24 PORTS**
- 24 10/100/1000Base-T RJ45 Ports
- PoE Budget of 195W extendable to 740W with supplemental RPS
- 2 dedicated 10G SFP+ ports supporting 10G and 1000M speeds
- 2 dedicated 10GBase-T copper ports supporting 10G/1G/100M speeds

PL-08  For Small Business – 8 Ports
The Power over Long Reach Ethernet (PoLRE) LPC 8 Port switch was designed specifically to enable small businesses and distributed enterprises with multiple locations to migrate to a hosted or premise based VoIP solution with confidence. The PoLRE LPC switch transforms the existing, proven reliable voice infrastructure into an IP path with Power ideal for IP Telephony. Best of all, there is no need to replace the IP phone or power source when upgrading your data speeds to the desktop. The separate PoLRE backbone supports your bandwidth and power requirements today and into the future.

- Can drive up to 8 Adapters (2 included with PL-08)
- Stackable with two uplink ports
- 2 RJ45 ports: 10/100 Base-T autoselecting, independent speed selection, Ethernet IEEE 802.3, CAT5 copper cable
- 8 x RJ11 Jacks
- Maximum distance: 1200’ (365m) CAT3 UTP cable, 24 AWG
- Speed: 10Mb/s (full duplex) • PoE power: 10 Watts

PL-024 and PL-048  For Medium to Large Business – 24 and 48 Ports
Switches that deliver Ethernet and power over a single pair of telephony grade wire

- 24- and 48-Port Configuration Options • PoE & Ethernet over single pair
- Over 4 Times the Reach of Traditional Data Switches 1,200 feet
- 2 x 1 Gigabit Uplink Copper and Fiber Ports • RS232 Management Port
- 10x100 Mb Management Port • 10/24/48x 10 Mb Downlink Ports • Remote Management Capability • Industry-Leading, Low Power Consumption
- Hot-Swappable AC Power Supply • Power-Sharing and Load Balancing amongst Multiple Switch Deployments • Multiple Power Redundancy Methods Available

PL-024  24-Port PoLRE Switch
PL-048  48-Port PoLRE Switch
PL-PA011-6  PhyLink Adapter (6-Pack) For PL-08, PL-024 and PL-048
PhyLink Adapters are media converters that connect between the single pair of voice-grade copper to a RJ45 PoE Ethernet connection for connectivity and power to the attached IP device

EC10-5  10-Port PoLRE Switch with Coax Connectors
EC is a 10 port Ethernet over Coax switch designed specifically to facilitate a seamless switchover from an analog to an IP infrastructure by leveraging the existing coax cables to deliver Ethernet and POE. The EC switch transforms the existing, proven reliable coax infrastructure into an IP path with power ideal for IP Cameras.

- 10 Port plug-and-play coax switch leveraging PoLRE (Power over Long Reach Ethernet) technology
- Supports IEEE 802.3af & 802.3at compliant devices
- Fast Ethernet & PoE over coax with over 5 times the reach of the traditional switches
- 2 Gigabit uplink ports for stacking multiple units

LNK-02  EC-Link Adapter 2-Pack
- EC-Link adapters are media converters that connect between a coaxial cable to a standard RJ45 Ethernet PoE connection for connectivity and power

LNK-Plus  EC-Link Plus Adapter
- The EC-Link Plus adapter is an Ethernet extender that extends Ethernet and high power over 2 or 4 pair UTP

FLX-024  24-Port Managed Ethernet and PoE++
The FLEX managed switch delivers fast Ethernet and PoE++ (50 watts per port) over multiple pairs of UTP cable with six times the reach of traditional switches. FLEX was designed to make the migration to IP quick, easy and cost effective by leveraging an existing 2 or 4 pair UTP infrastructure. The Flex switch can operate in standard mode (without an adapter) and long reach PoE mode for extended reach.

FLXLK-PLUS  Flex Link Plus Adapter
- Media converter adapter
- Can be locally powered for more PoE delivery
- Can be paired together as Ethernet extenders

FLXLK-XXKIT  FLEX LINK Extender Kit
- Kit includes FLEX-Base adapter, FLEX Link Adapter and a 60 watt 55V power supply.
- 10/100BASE-T(X) Ethernet with PoE++ (up to 50W)
- 10/100 Mbps, full duplex data rate
- Power Injection or Pass-through PoE++ over standard UTP or STP cable
- Up to 2,000 feet (610 m) at 100 Mbps over 4 Pair, or at 10 Mbps over 2 or 1 Pair
- Operating Temperature from -40°C to +70°C
- Supports Multicast and Unicast
- Auto detect data rate for maximum bandwidth and transmission distance utilization
- Complies with all major IEEE standards and RFC network protocols for UDP, TCP/IP, HTTP/HTTPs
- EN 50121-4 Certification – Rail/Subway (FLEX Base & FLEX-Link)
- LED indicators for operating status

Improving Performance

Band Steering shifts Dual-Band clients to 5 GHz, optimizing bandwidth.

Supports IEEE 802.11a/b/g/n/ac wireless standards. Up to 450 Mbps on 2.4 GHz, up to 1300 Mbps on 5 GHz.

Includes power adapter or connect via PoE with 802.3at/af Switch or Injector. Fast Roaming when used with a RADIUS Server.

Band Steering shifts Dual Band clients to 5 GHz for better throughput performance.
**SONY**

**QW75X350E** 75” 4K Professional Signage
- 4K professional signage display
- 75” high performance 4K display TRILUMINOUS display technology
- LED backlighting • HDR ready
- HTML-5 and Android OS give simple powerful signage capability • USB input for signage content

**PN-L901** 90” 1080p Professional Signage
- Full HD (1920 x 1080) Native Resolution
- 5000:1 Contrast Ratio • 176°/176° Viewing Angles
- HDMI/Mini D-Sub/Component Inputs
- 1 x Ethernet Port • RCA & Digital Audio Outputs
- Powerful RS-232C Command Set
- Unique Wallpaper Mode • Built-in 20 Watt Speakers

**EPSON**

**W29 V1H690020** WXGA Projector
- Brightness of 3000 Lumens
- WXGA 1280 x 800 Native Resolution
- 1 x HDMI / 2 x VGA / 1 x S-Video
- 10,000:1 Contrast Ratio • Up to 10,000 Hours Lamp Life
- RJ45 Network Control • Built-In 5W Mono Speaker
- Includes Remote Control and VGA Cable

**BenQ**

**MU686** WUXGA Projector
- Brightness of 3500 Lumens
- WUXGA (1920 x 1200) Native Resolution
- HDMI, VGA, S-Video, & Composite Inputs
- VGA Output for Loop-Through
- Analog Audio Input and Output • Built-In 2W Speaker
- RS-232 Controllable • VGA Cable & IR Remote Included

**CRESTRON**

**HD-MD-400-C-E** 4K/HDMI Switcher
- 3x1+1 high-definition digital AV switcher, scaler, and extender • Fully-automatic operation
- Easy web browser setup
- Includes a compact transmitter and receiver
- Single CATx cable links the transmitter to the receiver
- Supports up to Full HD 1080p and WUXGA

**YAMAHA**

**R-N301BL** 2-Channel Network Receiver
- Up to 140W Per Channel • Internet Radio Streaming
- Apple AirPlay Compatible • Ethernet Connectivity
- Integrated Digital AM / FM Tuner
- 4 x Stereo RCA-In / 1 x Headphone-Out
- 1 x Optical / 1 x Coaxial
- Smartphone and Tablet Control

**TOA**

**A724** 9-Channel Mixer/Amplifier
- 240 watts; 50Hz to 20kHz frequency response
- High-quality, rack mountable construction • Nine inputs
- Input module slot lets you customize the unit to meet your needs • Voice-activated priority ducking for paging
- Master and channel volume controls
- Bass and treble controls • Protection circuitry

**SHARP**

**20378** 65” x 153” Dual Mask Electric Screen
- Masking system converts Cinemascope to HDTV, Letterbox to NTSC format or HDTV to NTSC format
- Black painted case
- Slim-Tab, a lower profile and stronger tab design to keep screen perfectly taut
- Smooth Roll Technology to keep screen perfectly flat

**AKG**

**3251HCO090** Wireless Vocal Mic Set
- 8 Selectable Frequencies
- HT 45 Handheld Cardioid Microphone
- 70 Hz to 20 kHz audio bandwidth • SR 45 Receiver
- U2 / 614 - 634 MHz carrier frequency
- Balanced XLR and unbalanced 1/4” (6.3 mm) jack
- Output level at rated deviation: 500 mV rms

**Deadmau5**

**VP-555** Presentation Matrix Switcher and Scaler
- Six HDMI inputs • Four HDBaseT inputs, an analog VGA input, and a 4x1 USB switcher • Mic input
- Independent stereo audio outputs
- Monitor output • Amplified speaker output
- Audio digital signal processor (DSP)
- Supports up to 1080p/UHD output resolution

**CD200SB** Rackmount CD Player/Bluetooth Receiver
- Bluetooth 3.0 • CD Drive Designed by TEAC
- 10 Second Shockproof Memory
- Plays CD, CD-Rs, CD-RWs
- Plays WAV, MP2, MP3 Data CDs
- 3.5mm Stereo Auxiliary Input
- Coaxial & Optical Digital Output • Includes Remote
**O8B2M 4K Bullet IP Camera with Junction Box**
- 7-12mm motorized lens • Built-in standard PoE
- Supports up to 4K resolution • 200Mbps available for camera recording bandwidth
- Smart IR function provides vivid image in darkness
- True Day/Night operation (IR cut filter)
- IR Range: 160’ (depending on scene reflection)
- Micro SD slot • 2-way audio communication
- 2 sensor inputs and 1 relay output
- IP67 compliant, weather resistant
- Junction box included • UL listed
- Conformant with ONVIF Profile S

**O8D2M 4K Dome IP Camera with Junction Box**
- 7-12mm motorized lens
- Built-in standard PoE
- Supports up to 4K resolution in 16:9 format
- Smart IR function provides vivid image with no saturation in darkness
- True Day/Night operation (IR cut filter)
- IR Range: 160’ (depending on scene reflection)
- Micro SD slot • 2-way audio communication
- 2 sensor inputs and 1 relay output
- IP67 compliant, weather resistant
- Junction box included • UL listed
- Conformant with ONVIF Profile S

**N8NXP 8-Channel 4K NVR with Built-in PoE+ Switch**
- Supports up to 4K resolution on all channels
- 200Mbps available for camera recording bandwidth
- Built-in PoE+ (IEEE 802.3at) for all channels
- Plug & play feature with isolated traffic on the PoE ports with Speco’s IP cameras
- Find and install IP cameras on the local network without needing to locate the cameras manually
- Supports H.265 and H.264 dual compression
- Free U.S. Based DDNS Server Access • UL listed
- HDD available from 2 to 24 TB

**N16NXP 16-Channel 4K NVR with Built-in PoE+ Switch**
- Supports up to 4K resolution on all channels
- 200Mbps available for camera recording bandwidth
- Built-in PoE+ (IEEE 802.3at) for all channels
- Plug & play feature with isolated traffic on the PoE ports with Speco’s IP cameras
- Find and install IP cameras on the local network without needing to locate the cameras manually
- Supports H.265 and H.264 dual compression
- Free U.S. Based DDNS Server Access • UL listed
- HDD available from 2 to 24 TB

**HT7043T HD-TVI 3MP Intense IR Bullet Camera**
- 2.8-12mm auto iris varifocal lens
- Supports up to 3MP @ 18fps
- Intense IR function – no saturation, IR intensity adapts to subject to provide vivid image
- True day/night operation – mechanical IR cut filter
- 3 axis lens mount • Chameleon Cover™
- Full OSD operation through on-board control and UTC (up the coax)
- Built-in heater & anti-fog glass reduces condensation
- IP66 weather resistant
- 12VDC & 24VAC dual voltage operation

**HT5943T HD-TVI 3MP Intense IR Dome Camera**
- 2.8-12mm auto iris varifocal lens
- Supports up to 3MP @ 18fps
- Intense IR function – no saturation, IR intensity adapts to subject to provide vivid image
- True day/night operation – mechanical IR cut filter
- 3 axis lens mount • Chameleon Cover™
- Full OSD operation through on-board control and UTC (up the coax)
- Built-in heater & anti-fog glass reduces condensation
- Vandal / tamper resistant • IP66 weather resistant
- 12VDC & 24VAC dual voltage operation

**4K LED Monitor**
- 28” 4K LED Monitor
- 16:9 display ratio • 3840x2160 4K resolution
- 2 display port inputs
- Displays up to 16.7M colors • 280 cd/m2 brightness
- 3000:1 contrast ratio
- Convenient front controls for screen programming
- VESA mount compatible • 1-Year Warranty

**LRT-4 Long Range 4 Channel Transmitter**
- Up to 400ft range (line of sight) • Convenient Key Fob design
- 4 buttons to activate up to 4 different Wiegand devices
- Secure, Rolling Code + Encryption, digital, anti-playback wireless transmission
- Integrated 125KHz proximity module for close range access
- LED to indicated button press and battery strength
- Replaceable CR2032 battery lasts up to 500,000 button presses
- Robust buttons rated for up to 1 million activations
- Internal silicone diaphragm/gasket seals circuit board from moisture and debris

**PB-100 Programming Software**
- Software Provided For 1600A Series Emergency Phone Polling
- Remote Programming of AES-2000 Accessible Entry System
- Compatible with Windows XP and up
- Accepts standard RS-232 ASCII commands
- Audio In for playing announcements • Audio Out for recording announcements
- Able to send and receive 1200 baud data

Mobility Integration Highlights
✓ Real-time sharing of contacts across mobile devices (via Reach), Outlook (via Interact Professional), and Verge IP phone 1, 2, 3
✓ Instant handoff of active calls to and from your mobile device and Verge IP phone (via Reach) 1, 3
✓ Instant control of Verge IP phone using your mobile device (via Reach) 1, 3
✓ Bluetooth® hands-free for receiving and placing cellular calls on your Verge IP (available on the Verge 9312 model) 1, 1

Other Highlights
✓ Self-labeling programmable function buttons.
✓ Contextual soft keys.
✓ Color display.
✓ Full-duplex speakerphone.
✓ HD audio.
✓ Built-in four-way conferencing.
✓ Visual ring indicator.
✓ Gigabit Ethernet.
✓ Integrated network switch with port mirroring.
✓ Power over Ethernet (PoE).

Verge 9312
• 12 self-labeling programmable function buttons.
• 4.3” color display.
• Full-duplex speakerphone.
• Bluetooth support.
• Supports up to three Verge 9318Ex Expanders.

Verge 9308
• 8 self-labeling programmable function buttons.
• 3.5” color display.
• Full-duplex speakerphone.

Verge 9318Ex Expander
• 18 self-labeling programmable function buttons.
• 4.3” color display.

Hospitality Features from Vertical Summit
✓ Flexible Buttons on Front Desk Phone for Simple Default Feature Configuration
✓ Hotel Service Stations
✓ Hotel Name Registration
✓ Check-in/Change Room Status
✓ Additional Tax Fields
✓ Check-Out
✓ Room Charge Display & Deleting Service Station’s SMDR Record

For more information on the hospitality solutions and additional features from Vertical Communications, call 1-877-VIRTUAL, or visit www.vertical.com.

The Vertical Summit™ is the only communications platform with a dedicated hotel/motel feature set ideally suited for boutique, small and medium-sized properties. Combine your communications system directly with guest services for more streamlined, cost-effective administration and operations, from the front desk to the back of the house.

Now directly integrated with a variety of Property Management Systems (PMS), Vertical Summit can help you achieve your business and hospitality goals.
Offer your customers the best hosted communication and collaboration platform on the market today
