

## Transform your business

Product Catalog 2017
Communication solutions from Jabra

### We are Jabra

We make life sound better.

Every day, our intelligent sound solutions inspire people in ways they never thought possible.

That's because great sound, tailored to your needs, makes all the difference.

At work, we empower you to be even more productive – helping you concentrate, communicate and collaborate better. We do this by helping you block out unwanted background noise, and by delivering crystal-clear sound.

We inspire athletes, young and old, to beat their best, thanks to innovative sports headphones featuring real-time voice coaching.

We also help you enjoy the music you love while you're on the move, with rich and immersive sound. And you can effortlessly switch to making a call and back again. All with total clarity.

It's our life's work to transform lives through the power of sound.

## GN

### We are GN

Jabra is proud to be part of The GN Group – a brave and inventive group of people breaking new frontiers since 1869.

This inspires us every day to pioneer our own sound solutions, such as the world's first Bluetooth® headset, and many more.

We share The GN Group's knowledge and expertise, thanks to our close relationship with ReSound, our sister brand. World-leading hearing-aid experts, ReSound brings people with profound hearing loss closer to the things they love.

What they know, we know. Which means no-one understands the science of sound like we do. Together, we can truly make life sound better.

### Quality as standard

### **UC Plug-and-Play**

Intuitive call control and seamless connection to all leading UC applications and softphones. Easy to set up and easy to use. You're free from any installation expertise or extensive training requirement.

#### Secure Wireless Calls

All wireless office headsets encrypt the signal between the headset and the base digitally. That guarantees confidentiality and peace of mind when you need your privacy.

### **High Durability**

Reliable and built to last. Every headset is subject to extensive testing, everything from cable flexing over boom arm rotations to acoustic tests. Durability cuts costs and saves time.

#### Remote Call Control (RCC)

RCC gives you call control with your wireless headset from your desk phone, using either an Electronic Hook Switch (EHS) cable or a mechanical handset lifter (Jabra GN 1000).

#### **Optimized for Unified Communications**

The vast majority of Jabra products come in standard variants or variants that have been optimized for all major UC platforms.

#### **DECT vs. Bluetooth® Technology**

DECT – Best possible range and density performance. Bluetooth® – When mobility with one solution, in and outside of the office, is a key need.

Headset	Bluetooth®	DECT
Connection (in the office)	Desk phone Softphone Smartphone	Desk phone Softphone Smartphone
Connection (outside the office)	Softphone Smartphone	Not possible
Range (up to)	100m/330 ft	150m/490 ft
Talk time (up to)	12h	10h
Standby time (up to)	360h	46h
Channels available	79	120
Density recommendations (up to)	25 units (all Bluetooth®)	60 headsets for EU DECT (normal audio), or 30 headsets for EU DECT (wideband audio) 30 headsets for US DECT (normal audio), or 15 headsets for US DECT (wideband audio)
Sound quality	Narrowband Wideband* Hi-fi (A2DP)	Narrowband Wideband*

<sup>\*</sup> Also known as HD Voice

#### Sound quality

#### Clear sound

Clear sound is important for call efficiency and accuracy, and providing superior service. Digital Signal Processing (DSP) technology optimizes sound performance by filtering out distracting background noise, reducing call handling times and potential misunderstandings.

#### **HD Voice**

#### -Wideband audio

Enjoy high-definition sound with HD Voice and get crystal clear, intelligible communication. You get life-like, vibrant conversations that let you focus on the content of the call instead of struggling to hear the person on the other end of the line.

### Noise cancellation

### Noise Blackout™

Jabra Noise Blackout technology eliminates disturbing background noise such as wind, surrounding conversations or traffic to enhance your voice. So you can now talk freely without even raising your voice.

#### Noise cancellation

Choose between different noise canceling microphones that filter out unwanted background noise. Great for use in noisier, open office environments.

#### Wind noise protection

Wind Noise Protection enables you to keep the thread of your conversation in open air environments without any interference. Walk, bike, run, work outside and talk with no need to raise your voice or shout to be heard.

#### Hearing protection

### PeakStop™

PeakStop technology, included with all Jabra headsets, immediately removes potentially harmful loud sounds or tones before they reach your ears and keep the sound level within a safe range to protect your hearing.

#### SafeTone™

SafeTone technology, included with selected Jabra headsets, protects your hearing by cutting off sudden loud noises and maintaining a safe average sound level throughout the day – meeting EU noise at work compliance and NA recommendations. For more information please visit jabra.com/hearingprotection

#### Comfort

### Different wearing styles

Most Jabra headsets have a choice of up to three different wearing styles for the most comfortable and customizable fit

#### Mono or duo speaker

Depending on your work environment or simply your personal preference, for many of our headsets, you can choose between mono (one) and duo (two) speakers.

### Complete control. Complete solutions. Jabra software

Install and connect your Jabra sound devices.

#### **Jabra Direct for Windows**

Jabra Direct enables Jabra USB devices to have remote call control over most softphones:

- Gives you the ability to personalize your Jabra device
- Allows you to continually improve your device with firmware upgrades
- Includes a convenient dashboard with status updates to ensure everything is ready for the next call

All in one user friendly interface. Download it free today at jabra.com/direct

#### Jabra Suite for Mac

Get your Mac softphone and Jabra audio device speaking the same language.

- Control your Mac softphone calls from your Jabra device
- Improve your Jabra device with firmware updates
- Handle Bluetooth® connections between your Mac and Jabra headset

#### **Jabra Connect**

The smartphone app for IOS and Android that puts your Bluetooth® customization in the palm of your hand.

- Switch seamlessly between calls on your smartphone or PC softphone
- Easy pairing of Bluetooth® devices
- Configure your headset via app
- Check your headset battery level

For Jabra headset compatibility, visit jabra.com/connect

#### Jabra Xpress™

Jabra Xpress is an online service that allows IT professionals to mass- deploy and manage Jabra USB audio devices in record time, 100% remotely.

- Easy mass deployment
- Smart asset management
- Agile maintenance

To accelerate UC adoption and maximize Jabra headset ROI, start using Jabra Xpress today at jabra.com/xpress

Download it free today at jabra.com/macsuite

# Unified Communications

Our sound solutions help you get the full benefit from your UC investment through amazing sound and simple easy to use audio devices.

At Jabra, we focus on the individuals that make up the organization. Behind each Jabra sound device is a human being that needs to adapt to new technology and embrace a new way of working.

To help them adapt to the new reality, we map the exact ways they'll use our products to create value – meaning you get the productivity you'd expect from our products.

### What Is Unified Communications?

UC makes it easier for people to connect, communicate and collaborate. UC brings together all office communication devices into a single, integrated application and user experience. This includes replacing traditional telephones with softphones.

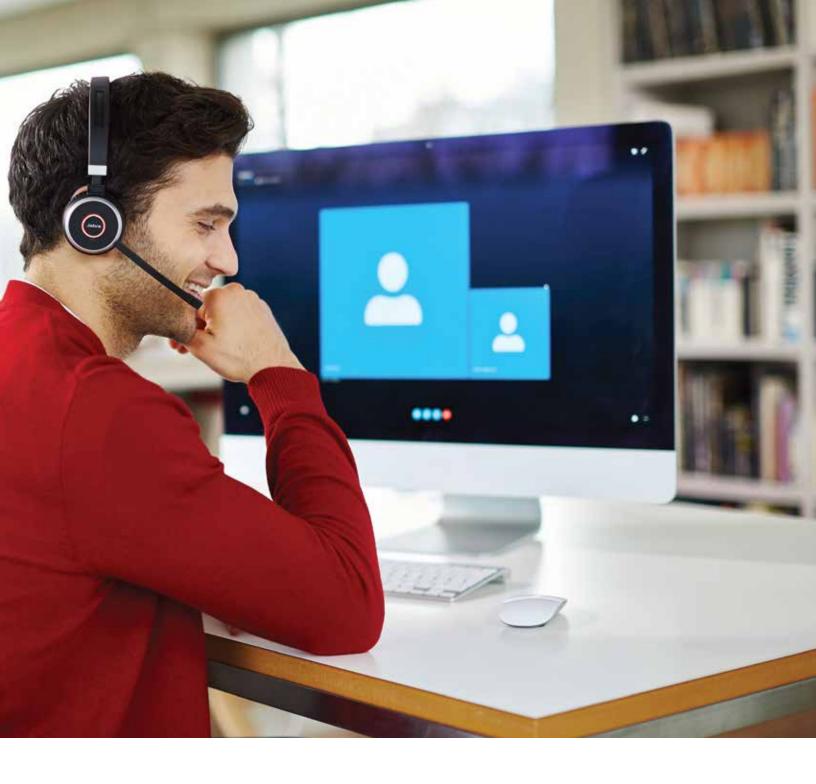

With a UC solution in place, employees are more productive, interactions are smoother, and you get tangible cost reductions. This provides a very compelling business case for companies.

### Perfection in partnership

### Strategic alliances

We design, develop and test our sound solutions in close co-operation with the market's leading telecom and UC providers. We have earned the certification and endorsement of Microsoft, Cisco, Avaya, Unify, Alcatel, and many others. We work closely with them to integrate our products into the current and new generations of their UC solutions – which is why we're the market leader in UC-optimized sound devices.

# New ways of working

### Whatever the challenge, we rise to it

We firmly believe that organizing your workflow helps people realize their full potential. We call this thinking "New Ways of Working."

Our "New Ways of Working" involves everybody with an interest in how we work, how we organize our work and how we motivate employees. It helps us improve our primary work modes and in turn become more innovative, productive and successful.

Work is no longer a place you go to but an activity you do. It's no longer restricted to a specific time or place. Dispersed teams are common in today's workplace. These new challenges are reflected in the products that we produce.

We recognize your needs for better productivity and your need to make conscious choices about the technology you surround yourself with. All our products are created with the individual in mind.

### Why Jabra?

Based in Denmark – the home of sound – we focus on the needs of people and businesses to create intelligent sound solutions that enable them to achieve more.

We make your investment in communication infrastructures straightforward. Through intuitive, adaptable sound solutions and knowledgeable, dependable customer support, we can help improve your workplace productivity.

### The voice of your brand

The voice of your company – your employees – is your most important asset. The human voice is the most approachable and safest way to share sensitive and valuable information.

The sound quality of your headsets can be the difference between success or failure in interactions with colleagues, customers or business partners. It also determines whether you realize the full benefit of your technology investment.

### Designed for different needs. Choose the right solution

When you're looking for the perfect headset, there are things you need to consider.

### Where are you working?

#### At office desk

You spend most of your time in the office, at the desk and on the phone.

#### Around the office

You spend more time in the office than on the road but you need freedom in the office to perform.

#### On the go

You spend more time on the move and you need to be able to work from anywhere.

### What do you want to connect?

You'll need to consider your connectivity needs to make sure your headset solution is compatible with your phone system. You can always contact a Jabra reseller if you need more advice.

Traditional desk phone

Softphone/Voip

Smartphone

Tablet

Multiple devices

### How noisy is your work environment?

Whether it's a little chatter in the background or a colleague sitting right beside you, the right speakers help you get the most out of your calls while the right microphone delivers quality sound on the other end – where it really counts.

#### Low noise

Omni-directional microphones pick up sound from any direction and block ambient and surrounding noise. Fine for the traditional, low-noise office.

#### Average noise

Noise canceling microphones and a mono speaker reduce unwanted background noise while ensuring you're still aware of your surroundings. Great for use in noisier, open office environments.

#### Hiah noise

Noise/ultra noise canceling microphones combined with duo speakers filter aggressive noise and can block the sound of someone sitting right beside you. Perfect for very noisy, distracting environments.

### Wireless or corded?

#### Wireless headset solutions

Great if you want to move away from the desk or if you want a streamlined cordless design.

### Corded headset solutions

Perfect if you only work at your desk and you want the best possible sound quality in one or both ears.

### Product selector - Let's get started

# Wireless headsets work how you want, when you want

With wireless hands-free flexibility and superior high-quality sound, you have the confidence to take each call whenever and wherever they happen.

## Jabra Busylight

Do not disturb

The Jabra Busylight helps you manage your personal workspace in an open office or hot desk environment where interruptions and distractions are high. Let your colleagues clearly see when you are on the phone: the indicator turns red when you're on a call and helps prevent you from being disturbed.

**Busy Light Indicator**

# Corded headsets power through every call

When you're working at a desk, you need a comfortable, well padded and superior call quality solution that suits your environment perfectly. This means your productivity starts from the second you sit down to work.

### Jabra Noise Guide

For open office environments where noise control is required

The Jabra Noise Guide signals to people in open plan offices if the noise level is too high, so they can regulate their behavior to support the overall group productivity.

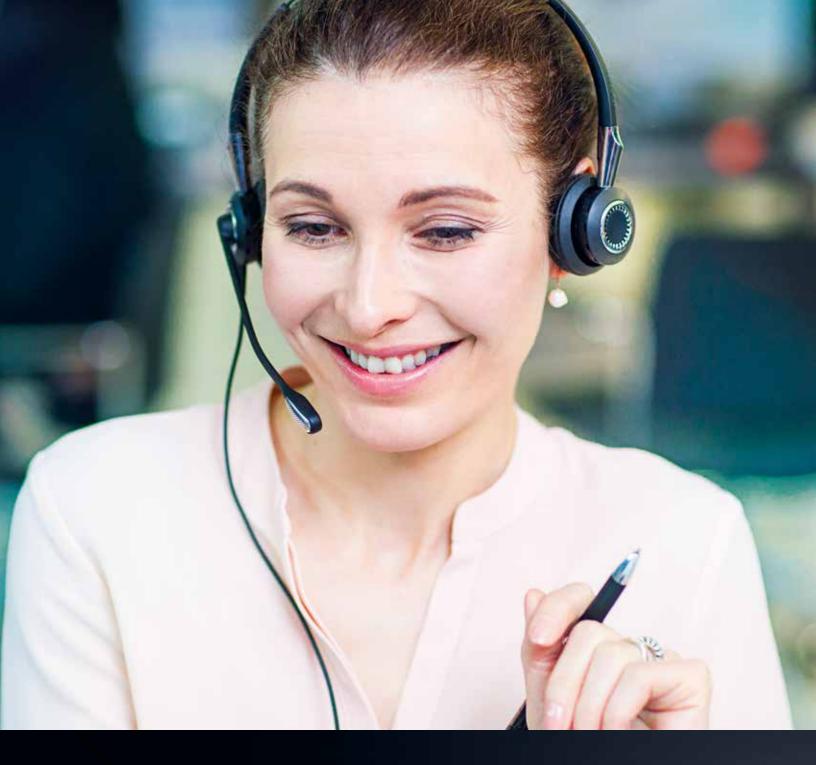

It's perfect for anyone who works in an open-plan office and needs to focus. Or for those taking lots of calls in noisy environments. Our Noise Guide helps create a positive experience for those on both ends of the line.

- Lights up when noise levels rise too high so you can consider moving conversations to a private or quieter room
- Glows green when noise is low, orange when nearing a limit and red when noise is too high
- Customize your maximum noise and working space requirements

Jabra Noise Guide	Product Numbers
Noise Guide with table stand	14207-41
Jabra Noise Guide with cubicle mount	14207-41

### Quality on the move - Jabra Link Mobile

Jabra Link Mobile cords let you use your smartphone with a professional, corded Quick Disconnect (QD) Jabra headset.

Just plug the cord into your smartphone and with the professional sound quality and noise canceling technology of a Jabra headset, you can take a call from a busy hotel lobby as if it were a quiet office. The cords are compatible with a wide range of smartphone and smartphone brands including BlackBerry, HTC, Apple, Microsoft, Nokia, Samsung, Siemens and Sony. Just contact your Jabra Sales Manager if you need help finding the right one.

Jabra Evolve 40 mono and duo<sup>3</sup>

Jabra Evolve 65 mono and duo³

Jabra Evolve 80 MS stereo

### Jabra Evolve Series

### Stay in control of your workplace

The Jabra Evolve Series is a professional range of headsets designed to improve concentration and conversations. Industry leading noise cancellation and integrated Busylight gives you peace to work in a noisy, open office; creating a concentration zone around you so you can stay focused. With a variant to suit every environment, with a variety of features to suit each worker: be part of the workplace evolution with the Evolve Series.

Easily transfer your Skype for Business calls from your softphone to your smartphone. Ideal for when you need to head out the office door or move away from your desk. Now available with the Jabra Evolve 40 and Jabra Evolve 80.

#### Works:

#### Works with:

Softphone, Android and Apple devices, smartphone and tablet, variant dependent

Let yourself and not the task decide where you work. The Jabra Evolve 30 II, 40 and 80 come with a 3.5mm jack incorporated into the control unit giving you the freedom to connect your corded headset to PC, smartphone or tablet.

Dial 550	7550-09

### **Jabra Handset** 450

The perfect UC experience for users who prefer a handset

Ensure seamless integration of Unified Communication (UC) and a positive user-experience for those who crave wireless freedom – but prefer using a handset.

- · Convenient wireless handset with new softphone-based UC technology
- Easy installation with USB-based, plug-and-play solution
- Professional sound quality, with wideband audio
- Compatible with Skype for Business
- Certified for Cisco Jabber

Works:

At office desk

Works with:

Softphone

Perfect for creating a positive uc experience for users that prefer a hand held phone and wireless freedom. Handset 450 integrates wideband audio to give you a crystal clear and natural sound experience, plug and play USB connection and DECT security.

Jabra Handset 450	Product Numbers
Handset 450 Smoke Grey	990-011-05
Handset 450 White	990-012-05

"Your customer service is superior, quality is great, and knowledgeable tech support is top-notch."

**Stephen M. Brady** Health Systems Specialists "These Jabra headsets are fantastic, sound is great and they are very comfortable."

Joseph N. Bryant Management Analyst

# Simply seemless – USB enablers

Get increased user friendliness with your UC solution.

### Jabra Link 180

Switch between desk and softphone on a single headset

- Ideal for transitioning from desk phone telephony to Unified Communications
- Manual switch for simple, hassle-free operation
- Cost-effective option for blended telephony environments
- Enables use of Jabra QD headsets with PC-based softphones

Jabra Link 180	Product Numbers
Link 180	180-09

### Jabra Link 230

Connect your corded QD headset to a softphone

- Enhanced sound and noise reduction experience
- Plug-and-play USB adaptor
- Works with all Jabra corded QD headsets

Jabra Link 230	Product Numbers
Link 230	230-09

### Jabra Link 260

Connect your corded QD headset to a softphone

- Inline call controls: answer/end calls, adjust volume and mute the microphone
- Programmable soft buttons for individual preferences
- Works with all Jabra corded QD headsets

Jabra Link 260	Product Numbers
Link 260	260-09

### Jabra Link 265

Join the conversation or stay muted when training agents

- USB Y-training cable connects to any two Jabra QD headsets
- Supervisor function allows supervisor to stay muted or join the conversation
- Inline call controls; answer/end calls, adjust volume and mute the microphone
- Programmable soft buttons for individual preferences

### Jabra Link 280

Connect your corded QD headset to a softphone and mobile devices

- Inline call controls: answer/end calls, adjust volume and mute the microphone
- Programmable soft buttons for individual preferences
- Connects to Bluetooth® enabled devices such as smartphones

Jabra Link 280	Product Numbers
Link 280	280-09

### Jabra Link 360

Plug-and-play Bluetooth® mini USB adapter for PC

- Plug-and-play Bluetooth® mini USB adapter for PC
- Enables HD Voice/wideband audio and music streaming/A2DP1
- Wireless range of up to 100m/330ft on Class 1 Bluetooth® devices, and up to 10m/33ft on Class 2 Bluetooth® devices <sup>1</sup> Device dependent

Jabra Link 360	Product Numbers
Link 360 UC	14208-01

### We are Jabra. We are GN.

Our intelligent sound solutions inspire athletes, people at work and people on the move. Jabra is proud to be part of The GN Group, a pioneering sound company with nearly 150 years of expertise, based in Copenhagen, Denmark. Working closely with our sister brand, the world-leading hearing aid maker ReSound, means that no-one understands sound like we do.
