

STAFFALERTER

DETECT → ALERT → RESPOND

Vape Detection System Dashboard

PM Power Products, LLC Announces an introductory bundle to help schools combat the Vaping epidemic. Only StaffAlerter™ brings the ability to manage edge detectors like the SA-VAPE 1 Vaping detector powered by Halo as a comprehensive anti-vaping solution. StaffAlerter™ monitors all of the sensors allowing the user to see in real time. All the conditions below:

HALO MULTI SENSORS

 AUDIO ANALYTICS ABNORMAL NOISE LEVEL DETECTION COMING SOON GUNSHOT DETECTION GLASS BREAK SHOUTING EXCESSIVE BANGING OCCUPANCY BULLYING	 AIR QUALITY VAPE THC SMOKE FORMALDEHYDE BENZENE VOLATILE ORGANIC COMPOUNDS(VOCs)	 CHEMICAL AMMONIA OXIDIZERS METHANE PROPANE CARBON MONOXIDE CARBON DIOXIDE GLUES	 LIGHT OCCUPANCY SENSITIVITY	 ENVIRONMENTAL TEMPERATURE HUMIDITY TAMPER PRESSURE
--	--	--	--	--

The starter bundle includes everything you need to build a Vaping detection system. Starting with the StaffAlerter Cloud server and one SA-Dashboard collection device designed to communicate with the SA-VAPE 1 detectors (HALO 1). Information is sent to the cloud based communications server where messages including voice calls, SMS text and emails can be sent to people and groups as needed. (6) Halo multi sensors detectors are included in the bundle at a reduced price.

Additional devices can be added to the StaffAlerter platform including wireless (Wi-Fi connected) personal alerting devices, audio/visual alarms and relays that can control anything in the facility. Easy deployment means lower cost for the customer and no need to expose the detectors to the internet limiting security concerns posed by other sensors requiring a cloud connection.

Includes StaffAlerter Cloud Server, SA-Dashboard collector and 6 SA-Vape 1 detectors.
 BONUS Item SA-PAD-2 Wi-Fi connected Personnel Alerting Device Included!

Add Detectors \$1,150.00

FREE

SA-PAD-2 Wireless notification device

Starting at only **\$8,895.00** this Vape Bundle provides the system that can help stop vaping in your facility today. An affordable monthly service of \$79.95 provides support for the website, (1) SA-Dashboard, software updates and notifications for up to 50 Users. Expansion is possible for additional Dashboard collectors on separate networks if needed. Installation extra.
